World Champion Grads Here on Wednesday Next

The world's wonder machine is coming to town. In other words, the famous Edmonton Grads, basketball champions of Canada, the North American continent, and the world, are to be with us, right here in Wetaskiwin, next Wednesday evening. B. W. Bellamy, president of the Wetaskiwin Sports Association, acting in the interests of the local Ladies Amateur Athletic Club, last evening completed arrangements for the appearance here under the joint auspices of the above organizations, of J. P. Page's Commercial Grads, and W. T. Tait's Grads, provincial intermediate champions, the Grads' crew of recruits.

This is the same team of Edmonton Grads who won the world's championship overseas, and who but a short time ago won such a notable victory against the Chicago team by staging a sensational comeback after losing the first game in defence of the Underwood trophy. On that occasion a stream of autos from all directions, Wetaskiwin, Camrose, Lacombe and intermediate points invaded Edmonton to take in those crucial contests, and now, through the activities of local sporting interests, the almost unbelievable opportunity is presented for the citizens of this city and surrounding territory to witness in action what is recognized the world over as the most wonderful ladies' basketball aggregation ever assembled.

The competing teams will be in the pink of condition for the occasion, as they have been practising faithfully in preparation for a tour to Vancouver and down the coast to California, leaving Alberta at the end of this month.

Incidentally, the Wetaskiwin Sports Association and Ladies Amateur Athletic Club are endeavoring to raise funds to assist in defraying expenses of sending nearly a dozen youthful athletes of both sexes to compete in the Women's and Junior Track and Field Championships of Alberta, at Lethbridge on August 6th, and the net proceeds will be devoted to that purpose.

This will undoubtedly be one of the most important sporting events ever staged in this city, and it is anticipated that the biggest crowd will be the attendance that has invaded the athletic park in several years. The game will be played in the evening, on the baseball diamond, commencing at 7:15. Provision will be made for the parking of autos on three sides of the playing field. If you're for Alberta, you're for the Grads. Let's show 'em how Wetaskiwin can honor the world's champions, by turning out on masse.

MRS. McLEOD GRANTED IMPORTANT PATENT

Mrs. T. G. McLeod of Hobbema, received the gratifying information a few days ago that she had been granted a Dominion of Canada patent for a sanitary food protector. She made application for this patent almost two years ago, and now the long suspense has been terminated by receiving this very satisfactory information. The patent is described as follows:

(1) A sanitary food protector including a tray having an upstanding annular flange, and a reticulated body including a lower frame having snug engagement with the flange of said tray, and outer frame extended over said flange.

(2) A sanitary food protector including a tray having an upstanding annular flange and a reticulated downwardly flared body including a lower frame, having snug engagement with the flange of said tray and outer edge of said frame over said flange.

(3) A sanitary food protector including a tray of rectangular form provided with an upstanding annular flange; a body including a lower frame of corresponding form for snug engagement with the flange of said tray, and the inner face of the flange thereof; said lower frame having its outer edge extended for engagement over the flange of said tray; said body including end frames extended upwardly from said lower frame; rigid connections between the upper portion of said end frames and the lower frame secured on the frame of said body to form the sides and top as well as the ends thereof and a handle carried on connections between said end frames.

We understand Mrs. McLeod will make arrangements with the manufacturer of this important invention.

679 DEAD IN EARTHQUAKE

Rome, July 24.—Official reports to the Government of Wednesday night accounted for 679 dead in Wednesday's earthquake disaster which occurred in southern Italy. The injured counted were 1,500. The tremors shook buildings and the people were panic-stricken.

Town Topics

Miss Nora Gibson is spending a few days with friends in Edmonton.

Mrs. C. E. Compton and son Ray, left on Tuesday for a motor trip to Banff and points west.

Miss Margaret Mooson left last week for Seattle, and intends to spend her vacation at the coast.

Mrs. H. W. Harrison and family of Edmonton, are holidaying in the "Johnny Walker" cottage at Ma-Me-O Beach.

Mrs. R. K. Mackay and daughter Alice, of Winnipeg, are guests of the former's sister, Mrs. J. H. Walker, of this city.

Rev. Wickert is conducting a week's evangelistic meetings at Prince Albert, Sask. He will be back here by the 28th.

Miss Christie of the Wetaskiwin teaching staff, is spending her vacation as the guest of Dr. and Mrs. N. D. Christie of Winnipeg.

Miss Hilary Bjorkgren, R.N., who has been spending her vacation with her parents here in Wetaskiwin, returned to her duty at Seattle, Wash., last week.

The crops and vegetation of this community have made a wonderful growth during the past few days. There have been several nice showers during the past week.

Rev. A. L. and Mrs. Elliott and family, with Mr. Weir and Miss Peir, intend to leave Monday for Banff, where they will occupy "Riverside" bungalow for a month.

Miss Florence and Violet Stanley, left on a motor trip to Banff with Mr. and Mrs. C. V. Robinson of Edmonton, where they will visit Lake Louise and many other places of interest.

At several members were out of town, as well as owing to the Carnival being held this week, the regular weekly luncheon of the Kiwanis Club, announced for Tuesday noon, was cancelled.

W. H. Lively, who has been conducting a confectionery store near the Post Office for some time, made an assignment a few days ago for the benefit of his creditors. A meeting of those interested was held at the office of the official receiver, Edmonton, on Wednesday.

The service conducted by Staff-Captain E. Davies on her visit to the Wetaskiwin Corps of the Salvation Army on August 4th, will be a treat for all who will attend. She holds an important position in the Salvation Army Training College, Winnipeg, and has been similar service in London.

The Kiwanis camp for boys commences at Pigeon Lake on Friday of this week, when twenty-four boys will take advantage of this outing. The camp will be in charge of Mr. Frank Kingzett, and if the weather is favorable a delightful time will be spent on the beautiful shores of this popular summer resort.

S. G. Tobin, ex-M.P. of Toronto, is spending a few days in this community, assisting in the election. Mr. Tobin is certain that the Liberal administration will be returned with a larger majority than ever, and there is every likelihood that Ontario will return more Liberals than this Province had in the last election.

Mr. and Mrs. Lundell received word that Mr. and Mrs. C. Swenson (nee Miss Myrtle Lundell) arrived at their home at Lake Park, Minn., on Monday evening. Prior to their departure, their many friends assembled at the spacious home of Mr. and Mrs. Lundell of the Bear's Hill district, to wish the popular couple a bon voyage to their new home and for the rest of their lives. A number of handsome and useful presents attested to the esteem in which they were held in the community. They travelled via Banff, through the Canadian Rockies, for their new home.

The Kapel All-Canadian Shows played here on Monday, Tuesday and Wednesday of this week, the tents being pitched between the Curling Rink and the Elks' hall. The usual show attractions, which included merry-go-round, ferris wheel, house-house, the Wonderland, etc., were prominent features. Owing to so many people being away on vacation, the attendance was not as large as hoped for. A pleasant attraction was the jiffy dance, which was held at the Elks' hall each evening. The show was sponsored by the Elks and Kiwanis Clubs, and the net proceeds will be used for benevolent purposes.

FEDERAL ELECTION ON MONDAY NEXT

On Monday next, between the hours of eight o'clock in the forenoon and six o'clock in the afternoon, an election will be held in this constituency to select member of the Federal Parliament to represent this constituency at Ottawa. There are three candidates in this contest, namely, William Hayhurst, Liberal; Wm. Irvine, U.F.A.; and Charles H. Russell, Conservative; and as a keen interest has been aroused throughout the constituency, it is expected that a very large vote will be recorded.

We would urge all electors to go to the polls and record their votes and at the same time we would like to emphasize the fact that a X is used in this election, and not the figures as was required in the Provincial election of a few weeks ago. Any mark made on the ballot by a voter excepting the X will spoil the ballot.

REGINA WELL EQUIPPED FOR WORLD'S GRAIN SHOW

Regina, Canada, is admirably situated and well equipped for holding the World's Grain Exhibition and Conference in 1932. It is a city of nearly 65,000 people, the capital of the province of Saskatchewan, surrounded by one of the greatest grain growing areas in the world. The Regina Exhibition Association grounds are already well equipped with spacious buildings for exhibition purposes. The World's Grain Show however, will be housed in a new building specially designed and erected for the purpose as distinct and separate from the others. The architecture and decoration of this additional structure, estimated to cost approximately \$250,000 and to provide a floor space of 160,000 square feet, will be appropriate for the purposes for which it will be used in 1932. To facilitate the shipment of grain, seed and other exhibits, Regina will be created a customs port of entry and all arrangements will be made to facilitate matters for exhibitors and visitors from any country in the world.

CROOKED LAKE BAND THIRD AT EDMONTON

Lakeview Collieries' famous crooked lake band again won the coveted prize for lowest score at the Edmonton exhibition Monday afternoon. The B. P. O. E. band of Stettin was second, while third place was captured by the Crooked Lake Boys' Band, of Wetaskiwin.

NOT TO IMPORT HARVEST HELP

Regin, July 17.—"By co-operating with the Saskatchewan government and not importing labor into the grain provinces for the harvest season, the railway companies are doing everything in their power to prevent an aggravation of the unemployed situation," said Hon. M. A. MacPherson, attorney-general Thursday morning. "Of course we cannot exclude any citizens from coming to the province at this time, but we do wish to stop our own people from moving to other provinces, but the idea is to cut down the imports of labor until the present surplus is absorbed. Then we might consider obtaining help elsewhere."

Over 100,000 skunk skins are trapped annually in Canada.

Successful Bible Camp at Pigeon Lake

The silver-tipped, smiling waters at Ma-Me-O Beach, extend each summer, an invitation to weary-minded and weary-bodied men and women to come and enjoy a well-earned rest. During the week from the 8th to the 15th of July, it was the privilege of members and visitors at the Alberta District S.S. and Y.P. Association of the Swedish Mission Covenant Bible Camp to accept that invitation. Between sessions, groups of young folks basked in the sunshine along the sandy beach, or diverted themselves of surplus energy, by engaging in varying water sports, or resorting to friendly discussions which had been awakened by some topic in the different sessions of the daily camp program.

Thanks to the efficient and competent work of Rev. Wickert, the president of the organization, and his executive, the camp was a success in every way. The daily schedule was followed very closely, and though compulsion was not resorted to in any form, the rules and regulations of the camp were observed by the Christian spirit. Our camp marsh and assistant had "easy going" as far as the punishment of offenders was concerned, but a rather strenuous order of work when it came to other affairs of the camp. Thanks are due to them for the way in which everything was carried out. The aim of the camp in the first place was to bring the young people of Alberta together for the purpose of Bible instruction and study. This is a phase of Christian life early neglected among our young people to day, and we believe it the first essential that we should have a knowledge of the greatest of all books, the Bible, in order to live a consistent life in the service of God.

MA-ME-O BEACH

Ideal camping weather, and all the conveniences at Ma-Me-O Beach.

Mrs. Tony Johnson moved out to her cottage on Sunday.

Mrs. Edwards and son, and Miss Helen Shantz of Edmonton, are visiting their sister, Mrs. Baker at Wetaskiwin cottage.

Mrs. Compton and daughter, Mrs. Moles, have improved the Killkare cottage with a coat of paint.

Mrs. Parker, Sr., is visiting the Parker family in Cuddle Doon cottage.

Mrs. Jack Weir is in Lee Kelley's cottage.

The Farnham family are back in town again.

Mrs. McAllister and Mrs. MacFarlane are in Ralph Schmitz's cottage.

The family of V. C. French is in Sleep Inn cottage.

Mrs. Graham and family are to camp now after two weeks in Calgary.

Mr. Burkholder and Helen have gone home.

The Taylor family from Edmonton, are in Gibson's big cottage. Mrs. Burroughs and family are in the small one.

Mrs. Stevenson and family, and her mother, Mrs. Cobblefield, are spending the summer at the beach.

The Gilt Girls broke camp on Tuesday.

Mrs. Prest and family, and her sister Mrs. Smith, and family, are in the Lake View cottage.

Mrs. C. D. Smith and family are at the lake for the summer.

Mrs. Wm. Dietz and Mrs. Bridgman are here for the summer.

Mrs. McMurdo and family have opened Max Inn for the summer.

Mr. and Mrs. Barry and family are in the Miquelon cottage.

Mrs. Beaton and family are in the Miquelon cottage.

Mrs. McMorris and family are at the lake for the summer.

Mrs. Fitch went back to town when her daughter went to the Guide camp.

The service held at the Guide camp on Sunday was one that will be remembered by the Guides. Rev. Wade, of the Guide camp, spoke to the girls.

Mr. Baker read the lesson from the Bible, and the singing was led by the Miquelon band.

Mr. Nelson has installed electric lights in his restaurant and boat house. Soon the hum of electric washing machines will be heard along the beach.

You can now have your choice of British-American or Imperial gas from the tanks.

A dance every Wednesday and Saturday night makes the old feet young for two months.

JOHN KNOX BIBLE VACATION SCHOOL

Rev. A. L. Elliott is conducting a Bible Vacation School in John Knox this week. The attendance is very gratifying, and the interest of the pupils altogether helpful. The school is conducted in the morning from 9 o'clock until 11:30, and the purpose is a fuller knowledge of the Bible in actual practice in life.

THREE POLITICAL MEETINGS THIS WEEK

The election fight in this constituency will apparently be centred in Wetaskiwin this week-end, as each of the contestants have arranged to hold meetings in Wetaskiwin. On Thursday evening, Chas. H. Russell, the Conservative candidate, will hold a meeting in the Audlen Theatre, when Senator Griesbach and Mr. Russell will be the principal speakers. On Friday evening, a Liberal rally will be held in the Elks' hall, when Capt. J. C. Bowen, S. G. Tobin and Wm. Hayhurst, the candidate, will give addresses. On Saturday evening, a meeting in the interests of Wm. Irvine, U.F.A. candidate, will be held in the Elks' hall, when Miss Lily Archibald, Wm. Irvine, and others will speak. Mr. Hayhurst, the Liberal candidate, will be represented at this meeting by Mr. J. Connolly of Edmonton.

TEACHING STAFF ENGAGED FOR TERM

At a recent meeting of the Wetaskiwin Public School Board, the teacher for the ensuing term were engaged as follows:

High School—Principal, R. V. McCullough, B.A.; Teachers, B.A. G. O. Crowell, Miss Agnes Reid, B.A. of Champlain, Miss Margaret S. Shanks, B.A. Nordegg; Miss Joan C. McLean, B.A. Edmonton.

Alexandra Public School—J. Kulak, principal; Miss Gladys Robinson, Miss C. K. Allan, Miss Lillian Fellows, Miss Margaret, R. Abbot (Calgary), Mrs. W. Walker.

King Edward—Miss Molly Henderson, Vice-Principal; Mrs. B. A. Munn, Miss Eva B. Walker, Miss Gwen Christie.

BIG SLAUGHTER GOPHERS, CROWS AND MAGPIES

The competition sponsored by the Municipal District of Lloyd George and the Camrose Fish and Game Association to encourage the destruction of agricultural pests has been a decided success this season. This is evidenced not alone by the tremendous aggregate of crows' feet and eggs, and gopher tails, which have been delivered, but by the greatly decreased number of crops and gardens to be seen throughout the country, as compared with other years. Following is the total obtained this year:

Gopher tails..... 27,596
Crows and Magpie feet..... 14,908
Grows and Magpie eggs..... 3,620 (or 1510 crows)

ALBERTA'S OIL PRODUCTION

Production of oil in the Alberta fields during the month of April totalled 92,404 barrels as compared to 74,844 barrels for the corresponding period last year, according to figures compiled in the Department of the Interior from the reports of operators. The asphalt production was from the lime formations in the Turner Valley, while the total of 8,390 barrels of light crude produced, 6,517 barrels were from Turner Valley and the remainder from the Red Coulee field. The heavy crude came from the Wainwright field.

Transfer of departmental officials in Alberta from dominion to provincial employment will not take place until Sept. 30, it was announced.

Diversified Agenda Gets Attention of City Council

Weddings

GREINER-SVENSEN
A quiet wedding was solemnized in the R.C. Parish House, Wetaskiwin, on Thursday, July 17th, at 11 a.m., when Agnes Vivian, youngest daughter of Mr. and Mrs. Gilbert Svensen, was united in marriage to Walter George, eldest son of Mr. and Mrs. P. L. Greiner, Rev. Father Walravens officiating.

The bride looked charming in an ensemble of horizon blue fine crepe with hat to match, and carried a bouquet of Ophelia roses. The bride was attended by Miss Valburga Greiner, sister of the groom, who wore a flowered chiffon frock with hat to match, and carried a bouquet of roses. Mr. S. Svensen, brother of the bride, attended the bridegroom.

After the ceremony, a wedding breakfast was served in the banquet room of the Driad Hotel, at which the immediate relatives were present. The table was decorated with vases of roses and centred with the wedding cake.

The bridegroom's gift to the bride was a sapphire brooch, to the bridesmaid a sapphire ring, and to the best man a sapphire pin. The bride's gift to the groom was a pair of gold cuff links.

The bridal couple left on a motor trip to Banff and Golden, the bride travelling in a suit of dahlia crepe, with hat to match. On their return they will reside on the groom's farm in the Malmo district.

BRAY-RINGWALL

On Tuesday, July 15th, John Edgar Bray of Camrose, was united in marriage to Miss Ella Matilda, daughter of Mr. and Mrs. P. E. Ringwall of Fernie, B.C. The ceremony, which took place in the Baptist parsonage, Camrose, was performed by Rev. F. G. Gardiner. Mrs. N. Williams and Jim Gardiner of Camrose, acted as witnesses.

THE LUNDBERG WEDDING

The marriage of Wetaskiwin was the scene of a lovely wedding on Tuesday, July 22nd, at 5 p.m., when Oscar Theodore Haukoala of Duhamel, was united in the bonds of Holy Matrimony with Marjorie Luella Lundberg of New Norway, daughter of Mr. and Mrs. John Lundberg.

The bride was very charming in a blue georgette gown, blending beautifully with a necklace of sapphires. She was attended by her friend Miss Irene Justine Westwick, while the groom was supported by the bride's brother, Oris Edvard.

A number of relatives and friends were present to witness the ceremony, among whom were the parents of the bride. Rev. A. L. Elliott was the officiating minister.

Mr. and Mrs. Haukoala will visit Banff and other points by motor car and then make their home on their farm at Duhamel.

Town Topics

Mrs. Verna Newville left on Wednesday for Los Angeles, Cal., where she will take up her residence.

Mrs. W. Payne and Miss Emily Wilson of Calgary, are the guests of Mr. and Mrs. C. S. Payne for a few weeks.

Miss Margaret Moore, M.A., of Calgary, spent the week-end visiting at the home of Mr. and Mrs. Geo. D. Wallace.

Mrs. Frank Turner and family left last week for Ontario, where they will spend some time visiting relatives and friends.

Mr. and Mrs. Herb. Small, who have been visiting with Mr. and Mrs. W. J. McFaul, left on Wednesday for their home in Cabri, Sask.

Mr. and Mrs. W. F. H. Montgomery and family left on Monday, after spending a week holidaying at Banff and other places in the mountains.

Dr. J. T. Miller of St. Louis Concordia Seminary was a guest of Rev. and Mrs. Appelt the first part of the week. Dr. Miller is an old classmate of Rev. Appelt.

E. E. Asselton, B.A. of Calgary, a former principal of the public school here, was shaking hands with some of his friends the fore part of the week, while motoring from Edmonton to Calgary.

Dr. J. C. Shillaber returned on Monday from a trip to Europe and reports having had a most delightful and interesting holiday. Mrs. Shillaber and Jackie remained in Ontario, where they will visit with relatives for a few weeks.

Canada had, last year, a motor car for every nine people.

The regular meeting of the City Council was held Tuesday evening, with all members in attendance excepting Ald. Ellis.

After the adoption of the minutes of last meeting, Mr. McLeod addressed Council asking for work, as he had a large family and could not get employment. Consideration will be given to request.

Dr. McColligan gave an interesting report of the Convention at Calgary. Jas. Kabesh offered \$25 for lot in city on which to build a house. Accepted.

The Wetaskiwin Hospital Board wrote to the grant from the Municipalities being continued to the Board. The Council agreed to renew the present arrangement, and a grant will be given to Hospital Board to cover indigent cases as formerly.

A brokerage firm in Toronto offered to sell the city a Wetaskiwin wall debenture which would make a saving of \$330 to the city. Offer accepted and referred to Finance Committee to complete the negotiations.

Chief of Police Kingzett was given ten days' leave of absence enabling him to take charge of the Kiwanis Boys' Camp at Pigeon Lake, the Club to supply a substitute policeman.

Accounts to the amount of \$544.52 were passed for payment.

The Calgary Power Co. wrote advising Council that they proposed to re-build the electric wiring in Wetaskiwin this year, and asked if Council desired to have more street lights installed. Referred to Utilities Committee to investigate.

The matter of cutting brush on streets in western part of City was referred to Public Works Committee. Ald. MacAllister reported on work being done at the cemetery, which was approved by Council.

It was agreed that the offer of Calgary Power Co. be accepted, and that the City machinery be stored in the premises of the company.

A letter from Mr. T. Walker, Edmonton assessor, was read respecting the disputed assessment of Moara, and the assessment of the City of the matter will be forwarded to Proctor Paulson for his information.

Council resolved itself into an adjourned Court of Revision, and the assessment of Proctor Paulson, when it was agreed that the assessment of Carlson stand after which the assessment roll for 1930 was confirmed.

Council then resumed general business, and Bylaws 689 and 690 respecting the sale of property to Henry Jensen and Gus Redomski respectively, were read three times and finally passed.

It was decided to paint the new fence enclosing yard for farmers' teams, and it was referred to Public Works Committee to make arrangements.

The meeting adjourned.

TWO KILLED WHEN TRUCK OVERTURNS

Drumheller, July 17.—Two 12-year-old boys, Don Auger and Mervin Hopper were killed almost instantly shortly after 5 o'clock Wednesday afternoon, when a truck in which they were riding overturned on the Oakway road and plunged over the hillside to the river 250 feet below.

Douglas Borwick, an adult who was also riding in the truck was slightly injured, while the driver, John Jutras, 17, escaped injury.

"SECT CONTROL" IS SCORED

Ponoka, July 21.—Assertion that some "malicious individuals" were making false statements declaring that one sect had control of the Liberal party was made by Hon. Charles Stewart, minister of the Interior in the King government, speaking here Saturday night.

Mr. Stewart contended that this religious propaganda was being spread in the hope that the "party in question" would become involved. He said that an old gas used for time immemorial.

The speaker dwelt on the benefits of the Dunning budget, the need of a permanent market for Canadian wheat, the effect of wheat sales on Dominion prosperity, and the importance of the British preferential tariff.

"Failure to sell our wheat in the past was the direct cause of unemployment in railways and mining industries," said Mr. Stewart. "I believe that the general depression which follows non-sale of wheat justifies the making of treaties with a view to securing a permanent market for our grain."

Ottawa, July 24.—Dominion honorary life membership in the Canadian Legion is being offered the Rt. Hon. W. L. Mackenzie King, and the Hon. W. B. Bennett in recognition of their services in the interests of the returned soldier body and to the Legion.

the local news columns their own, to
the extent of contributing social and
personal items which are of interest.

If you have friends visiting you, there
is no need complaining you can pay
your guests than to take the trouble
to see that their names are mentioned
in your local newspaper. Call at or
phone The Times—our number is 27—
or send the item by mail.

FIT TO START SCHOOL

Now is the proper time to consider
whether or not the child who is to
begin school for the first time next
fall is fit to make the start.

Of the group of children who first
enter school, a large percentage are
found to be suffering from at least
one physical defect, often more.
These defects are of a type that do
not, of themselves, endanger the life
of the child, but they constitute a
very definite handicap to him.

It is quite obvious that the child
whose sight or hearing is defective
will not be able to do his best under
the same conditions as the child with
normal hearing and sight. With re-
gard to the blind and deaf, it is ne-
cessary that special facilities be pro-
vided for their education. Many chil-
dren are made partially blind or deaf
before their parents realize what has
happened, and of this number, a large
proportion could have the condition
remedied by proper measures of
treatment.

A child who is a mouth-breather,
who suffers from repeated head colds,
cannot do his best work. We all know
that a cold in the head makes it very
difficult for us to apply ourselves to
any task. Such a condition can fre-
quently be ended by the removal of
adenoids—the usual cause in chil-
dren.

It is not to be expected that a
child who is handicapped or with some
gives much attention to anything
outside of his own discomfort.
A clean, healthy mouth is a most de-
sirable possession, and is a real
health asset. Teeth should be looked
over by a dentist, and any treatment
necessary secured before the child
starts to school.

Now is the time to do this. If any
treatments are required, they can be
secured now and will not interfere
later with the child's attendance at
school. This will also leave the sum-
mer months free for the child to
build up his general health after any
treatments he may need to start his
school days with a body that is fit
to cope with his new duties.

Most defects can be corrected by
proper treatment. Children do not
grow out of such conditions. The
sooner they are attended to, there-
fore, the sooner the child is freed
from the handicap such defects im-
pose upon him. It is in the interests
of the child that he be given a fair
chance in his school work. Give him
this chance then by freeing him from
those defects which can be corrected
through suitable care.

LAUGHING IT OFF

(By Walt Mason)

While leaning on my garden gate,

I saw James Pennyfeather Skate, and
he was hot with righteous ire, and
cussing like a house afire. He'd just
been fined some fifteen seeds for
driving at unlawful speeds; the cop
who pinched him had been rude, and
so James Pennyfeather steved. He
said, "That cop who pulled the trick
will soon be feeling pretty sick; what-
ever pull I may possess I will exert
to his distress, and I have influence, I
swear, enough to make him take the
air. I'll let all other projects slide un-
til I've salvaged my wounded pride, I'll
boil along, though weak and tired, un-
til that pest who pulled the trick
is laid low, my friend," I said, "you'd
put such notions from your head;
you only seem a timorous sport when
you denounce the cop and court; and
men will listen to your spiel about your
terrible ordeal, and they'll detest the course you choose—
you show you don't know how to lose.
I have been pinched at divers times
for pulling off some traffic crimes and
I admit I made me sore when taken
to the courthouse door, and sentenced
by the lordly beak to stay in durance
ville a week, or cough up ten or fifteen
bucks for speeding past the city
trucks. Like you I cussed the wily
cops and uttered vain and foolish
yaws; and so the cops kept on my
trail and kept me chasing to the jail.
I saw that this would never do, when
I'd been pinched three times or two.
Thereafter, in my daily walk, I tried
another line of jest and said the
cops were of the best. It was a pleas-
ure to be fined by jurists of an honest
mind. It was a pleasure to be jailed by
cops whose virtue never failed."

TODAY

(By E. Guk Talbot)
Tomorrow I may reach the goal
I failed to find today.
So I'll press on; I'll persevere,
And watch and work and pray.
Tomorrow I may sing the song
I failed to sing today.
I'll bring good cheer to broken
hearts,
And make some sad heart gay.
Tomorrow I'll do many things
I meant to do today.
I'll then retrieve the golden hours
That now have passed away.
Tomorrow? It may never come!
For me there's but Today.
Lord, help me do the things I
should,
Without undue delay.

The Canadian Government killed
1,400 sea lions last year with ma-
chine guns.

Canada's potato crop is worth 70
millions a year.

The Wetaskiwin Municipal Hospital

At a recent meeting of the Board of
Trade held at Angus Ridge, Dr. Wallace,
President of the University of Alberta,
made this remark:

"You must sometimes submerge
yourself, and your personal viewpoint
even if it hurts, for the benefit of the
community as a whole."

This is very true and those who are
inclined to oppose Municipal Hospitals be-
cause they are well of themselves, and able
to afford specialized medical treatment and
hospitalization, should consider the need of
the average man who is not able to pay for
such things. These people of moderate
means constitute the large majority of the
ratepayers, and they are surely entitled to
receive the BEST POSSIBLE HOSPITAL
SERVICES OBTAINABLE AT THE MINI-
MUM COST. In time of sickness or acci-
dent, THEIR LIVES and the lives of those
who are dear to them, are just as valuable
to them, to their families, and possibly to
the community at large, as those who
would, perhaps unthinkingly, deny them the
services of a modern and fully equipped
hospital such as would be provided under
the proposed scheme.

This side of the case might also be con-
sidered by those inclined to vote against
the scheme because they will have to con-
tribute more than the average ratepayer
due to their land being highly assessed.
The Hospital Board has nothing to do with
a ratepayer's assessment, be it high or low.
The Hospital Board asks each Municipality
for 3c per acre, which the latter collect in
the way they collect all other taxes; i.e.,
by striking a mill rate sufficiently large to
raise the required amount. From this it can
readily be understood that the average
quarter section in each Municipality pays
\$4.80.

Do not be misled by the unsupported
statements of people who know nothing of
the great service a Municipal Hospital can
be to any community. Opponents of the
scheme are saying that while a tax of 3c
per acre over the whole district is to be
levied now, there is nothing to prevent the
Board from raising the rate at a later date.
THIS IS NOT TRUE. The rate mentioned
in the scheme already advertised is the
which you vote on, CANNOT BE EXCEED-
ED by the Board without taking another
vote and getting the consent of two-thirds
of the ratepayers. In any case, these are
idle suppositions. What opponents of the
added to the General Mill Rate. In reality,
it was a Hospital Tax. If the Tax which
is levied now to raise the sum required to
pay the Annual Grant to the present Hos-

scheme cannot explain away is the FACT
that NO MUNICIPAL HOSPITAL HAS IN-
CREASED ITS TAX OVER THE BASIS
OF THE ORIGINAL SCHEME SUBMIT-
TED TO THE RATEPAYERS. ALL OF
THEM ARE SUCCESSFUL, AND ARE IN
OPERATION TODAY. EVERY ONE OF
THEM HAS A FINANCIAL SURPLUS
WHICH BELONGS TO THE RATEPAY-
ERS, AND CAN ONLY BE USED FOR
HOSPITAL PURPOSES.

The Board is almost entirely composed of
farmer members; one member from each
constituting area.

Even opponents of the scheme admit that
the Hospital we have now is unsuitable for
the purpose for which it is being utilized,
and that it is poorly located. If they op-
pose the present Municipal Hospital ad-
scheme and the Board have got together by
practising the strictest economy, and by
charging a comparatively high scale of
fees; but even this has not been enough,
and they have been forced to ask for grants
from the City, and from the two adjoining
Municipalities to create the small surplus
already referred to. And how were these
Grants raised? They were raised by taxes
paid were deducted from the General Rate,
it would pay a substantial part of the tax
required from the contributing Municipal-
ities to support a Municipal Hospital. But
the Municipal Hospital gives you something.
It gives you a rate of 3c per acre, free of
the operating room, ordinary drugs and
dressings, and special rates for X-Ray
treatment. These are real benefits. You
are getting next to nothing now, and are
paying for it.

It is only fair to say that in return for
these grants the present Hospital agrees
to take care of indigent patients, but the
cost of these is only a fraction of the sum
contributed by the Municipality. The Hos-
pital can get similar protection from the
Municipal Hospital under the proposed scheme if
they wish to do so at very little cost.

If the small surplus, previously referred to,
has taken the present Board years to
get together, can we afford to wait another
20 years while they accumulate the balance
of the money required to build a new hos-
pital? What happens 20 years hence will
be of little concern to many of us. WE
NEED A MODERN AND FULLY EQUIP-
PED HOSPITAL NOW, TO SERVE THE
PEOPLE OF THIS DAY AND THIS GEN-
ERATION.

VOTE FOR A MUNICIPAL HOSPITAL
ON AUGUST 7TH.

PARTY STANDING IN HOUSE OF COMMONS

There are in the House of Com-
mons 245 seats. These are divided
amongst the various provinces in this
way:

Ontario	82
Quebec	65
Nova Scotia	14
New Brunswick	11
Prince Edward Island	4
Manitoba	17
Saskatchewan	21
Alberta	16
British Columbia	8
Yukon	1

In the last election, in 1926, the
result of the voting by provinces
was as follows:

Ontario—Liberals, 23; Conserva- tives, 53; Progressives, 4; Liberal- Progressives, 2.
Quebec—Liberals 60, Conservatives 4, Independents 1.
Nova Scotia—Liberals 2, Conserva- tives, 12.
New Brunswick—Liberals 4, Con- servatives 7.
Prince Edward Island—Liberals 3, Conservatives, 1.
Manitoba—Liberals 4, Progressives 4, Liberal-Progressives 7, Labor 2.
British Columbia—Liberal 1, Con- servatives 12, Independent 1.
Alberta—Liberals 3, Conservative 1, U.P.A.'s 11, Labor 1.
Saskatchewan—Liberals 16, Pro- gressives 5.
Yukon—Conservative 1.

Candidates already nominated or
in the field and to be nominated
next Monday are as follows, by provinces:

Quebec—Conservatives 63; Liberals 63; Independents 12.
Ontario—Conservatives 52; Lib- erals 50; Labor 1; Progressives 2; Lib- eral-Progressives 3; Independents 6.
Manitoba—Conservatives 18; Lib- erals 5; Labor 5; Progressives 2; Lib- eral-Progressives 9; Independents 7.
Saskatchewan—Conservatives 15; Lib- erals 20; Progressives 11; Lib- eral-Progressives 1; all others 5.
Alberta—Conservatives 11; Lib- erals 10; Labor 2; Progressive 1; U. P. A. 11.
British Columbia—Conservatives 14; Liberals 12; Labor 1; all others 5.

New Brunswick—Conservatives 11; Liberals 10.
Nova Scotia—Conservatives 14; Liberals 14.
Prince Edward Island—Conserva- tives 4; Liberals 4.
Yukon Territory—Conservatives 1; Liberals 1.

HOT WEATHER DISTURBANCES

The baby is more likely to have di-
gestive upsets during the hot weather
than at other seasons. The value
of breast feeding has been at this time.
Digestive disturbances do not occur
as frequently in babies who are being
naturally fed.

The milk for the artificially-fed
baby, while it should, at all times, be
carefully safeguarded, must be look-
ed after with even additional precau-
tions during the hot weather.

During the hot weather, milk is more
easily contaminated. Flies and in-
sects which carry infection do not
hesitate to land and bathe in the
milk, and so infect it. Milk must al-
ways be kept covered and protected
from flies and insects.

When milk is warm, any germs
which may have found their way into

it multiply at an amazing rate. If
such milk is given to the baby, the
heavy dose of germs which he there-
by receives is apt to set up diarrhoeal
conditions. Milk should be kept cold,
and this means on ice. It must not
be allowed to stand around in the
heat for even short periods of time.

In hot weather, everyone is better
with less food than usual. This ap-
plies to the baby as well as to adults.
Do not overfeed the baby in the
summer. Do not urge him to finish his
bottle if he does not seem inclined to
do so. During the excessive heat, the
amount of milk is better reduced for
the time that the hot spell lasts.

Do not forget, however, that the baby is
thirsty in hot weather just as you are.
He should be given plenty of cool
water between feedings. Boil the
water, first of all, if there is any doubt
as to its purity.

When the days are hot, keep the
baby in as cool a place as is available.
His clothing should be very light—a
thin shirt and a diaper are sufficient
when it is very hot. Sponge baths
help to keep the baby clean and cool.
Heat rash may occur at any time.
It is associated with excessive perspi-
ration which may occur as a result
of the weather or by the child's wear-
ing too much clothing. Lighter cloth-
ing should be put on the baby when it
is used. The parts affected by the rash
should be exposed several times a
day with a solution made up of one

teaspoonful of baking soda in one pint
of water.
If, in spite of all care, diarrhoea
does occur, it must be recognized as
a condition that is serious and not to
be treated lightly. Stop all feedings,
give cool water to drink, and send
for the doctor. If this is done im-
mediately, the condition is checked
before damage has been done, or be-
fore it has taken a firm hold.
Hot weather disturbances are to be
guarded against, but if they do oc-
cur, there should be no delay in deal-
ing with them.

Questions concerning Health, ad-
dressed to the Canadian Medical As-

sociation, 184 College St., Toronto,
will be answered personally by letter.

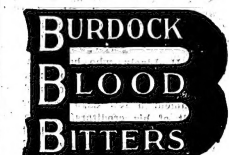

A NEW CABINET BUSINESS

Mr. M. Blinoff, of Wetaskiwin, has
purchased through Mr. Botterill from
the Ford estate, England, the old
shop on Second St. North, occupied
for years by Mr. Jas. B. Whyte as a
welding shop. Mr. Blinoff intends to
open out as a cabinet-maker and up-
holsterer—Red Deer Advocate.

Canada kills 3½ million fur-bearing
animals every year, yielding nearly
\$20,000,000.

Troubled with Boils on Face and Neck

Miss E. Shorthouse, Truro, N.S.,
writes:—"I was troubled with boils
on my face and neck due to the fact
that I had impure blood in my sys-
tem. I tried several kinds of medi-
cine which had no effect on them.
Finally a friend recommended Bur-
dock Blood Bitters, which she had
taken for a similar blood trouble.
After taking two bottles my blood
was completely cleared, the boils
disappeared and I have never been
troubled with them since. I know
of nothing so splendid, or so won-
derful for a blood purifier as
B.B.B."

Lower Living Costs for ALL!

Liberal Budgets during the past nine years HAVE KEPT LIVING COSTS DOWN. Tariffs have been
lowered on many commodities and implements of production, reducing living costs, and costs of produc-
tion while at the same time helping Canada to build up the greatest export trade per capita, in the
world, in manufactured and semi-manufactured goods.

Taxes Reduced—

Income Tax—Reduced over 35% since 1924.
Sales Tax—Reduced from 6 per cent to 1 per cent.
Postal Rates—Reduced from 2 cents to 2 cents;
Penny postage re-established.
Cheque Tax—Reduced from 2 cents on every
\$50.00 to 2 cents over \$10.00.
Receipt Tax—Abolished.
Transportation Tax—Abolished.
Insurance Tax—Abolished.
Telegraph Tax—Abolished.
Reduction in five years estimated to amount
to \$116,000,000.

Tariff Reductions—

1922—Sugar, agricultural implements, textiles,
boots and shoes.
1923—British preferential tariff reduced by 10 per
cent, where goods imported by Canadian port.
1924—Instruments of production used in agricul-
ture, mining, forestry and fisheries.
1925—Well-drilling machinery and fishermen's
engines.
1926—Sugar, automobiles, tin-plate, etc.
1928—Instruments of production in mining and
fishing industries; fertilizers on free list.
1930—Tea, porcelain, china, vegetables, fruits,
free under British preference.
Reduction in duties means reduction in prices.

Co-operative Poultry Marketing

In many districts in the province, particularly in the Northern sections, sufficient poultry is being raised to assemble full carloads of dressed poultry at country points. Local community shipping associations will be organized under the auspices of the Alberta Poultry Pool, wherever sufficient volume will warrant. Membership in respect to marketing poultry is on a voluntary basis, there being no contract in this connection, merely a mutual agreement. A membership certificate of \$1.00 will be issued to those participating in co-operative shipments. This ap-

plies to those who are not already enrolled as members of the Pool under the egg agreement. Demonstrations in killing and proper methods to follow in preparing poultry for market will be given. The object is to ultimately reach the stage where every farmer will know how to finish and dress his poultry on the farm. Under the community system, the very essence of co-operation may be exemplified. This is more apparent for the reason that an opportunity is afforded the producer to take part in the preparation and packing of the poultry and also because every

effort in this connection tends towards a reduction in the cost of handling which means relatively higher returns for the producer.

As a result of organized effort, the poultry is assembled, packed and shipped direct to market from the shipping point, thus saving the cost of transportation to Edmonton which is often several cents on the pound. Not only can poultry be packed at lower cost in the country, but it is not subject to the dangers of chafing, bruising and sweating. Another advantage is that the producer has the opportunity to see his poultry weighed and graded and receives his initial payment on the spot at the time of delivery. It is most important that producers notify the local association or agent of the number of birds of each kind they intend to deliver for community shipment. This information should be given to the association as early as possible in order that necessary packing material, etc., can be provided.

Spring Chickens—Experience gained in the season of 1929 has furnished abundant evidence that the proper place to fatten chickens is on the farm, hence a special effort is being made to extend this method of marketing.

How to Cull for Non-Producers Anyone who will spend enough time in careful examination and study of every bird in the flock can soon learn to cull. The following points will mark cull hens in July and August.

1. Completely yellow legs or beak.
2. Early moulting.
3. Less than a three-finger spread from pelvic bones to end of keel.
4. Less than a two-finger spread between pelvic bones.
5. Coarse, wrinkled, beefy head and dull eyes.
6. Excess fat in the abdomen.
7. Thick, tight skin.
8. Narrow or shallow bodies. Small size.

Few culls will show all of these points, but practice will soon make it easy to pick out the really good hens, the real culls, and those in between which can be kept or discarded depending on how close a culling is desired.

A very important part of the culling program is the weeding out of hens over two years old. Any farmer can do this as well as the most experienced culler, if he will simply mark the hens each year with a different colored leg band. An exceptionally good hen may be worth keeping a third year for breeding purposes, but in general it is the better policy to weed out all hens at two years of age.

When a flock is culled only once a year, the most satisfactory time is in August or September. At this season about 35% of most flocks can be removed without any appreciable effect on the daily egg production. To get the work done before harvest, culling is often done in July. It should be understood that some hens will be laying a few eggs in July which are really culls and which would stop in August or September. It must not be supposed that the July culler has made a mistake if he takes out any laying hens. It is not easy to pick out only the non-layers. It is more difficult, but better for the flock owner if all culls, whether laying or not, are removed.

WOMAN APPOINTED TO U. S. LEGATION

It seemed almost "poetic justice" that Miss Constance Harvey, whose home is in Buffalo, and who is the first woman vice consul to the American legation, and the first woman to have such a place in Canada, should make her first public appearance and her first address at a meeting of the Zonta Club this week in Ottawa. The Zonta Club is composed of business and professional women of outstanding ability in their respective work, and they are pleased to have Miss Harvey with them.

Women in diplomatic fields are new to Canada but not exactly new to the United States. Miss Harvey is the first woman who has been chosen for a foreign post, and at the present time there are four in the service. She received her education in France and Italy and took her course in international law at the University of Ottawa.

In her address Miss Harvey stated that she thought it was her essential duty to make all possible contacts with women and she said that she had a "lively interest in Canadian Women, in what they are doing and what they are thinking." In establishing these contacts she considered she would have the best way of advancing national and international work.

Canada grew 83 million lbs. of grapes in 1929. — Canada's four circles the globe in its sales. — Prince Edward Island is sending foxes to Sweden.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

WETASKIWIN MUNICIPAL HOSPITAL

To the Editor:
Dear Sir:

We hear a number of conflicting stories about the proposed Municipal Hospital, and it appears to me that what the average farmer wants to know is the plain facts of the case.

For instance, I have heard it stated that the "Stony Plain Municipal Hospital" is charging an enormous tax. The amount varies from day to day; some days it is \$17 per quarter section, on other days it is a little less. The report lacks stability it seems. Now there is no Municipal Hospital at Stony Plain, but I believe that area comes under the jurisdiction of the Department of Health which, in turn, charges 3c per acre on the average quarter section. It is possible and probable that some highly assessed land may pay more than 3c per acre, but it is inconceivable that any quarter section would pay as high as the report states. Then again, we hear it stated that the Red Deer Municipal Hospital is charging 9c per acre. This is obviously false because the Red Deer Municipal Hospital serves the City of Red Deer only, and has no farm land contributing thereto.

The facts are what we want, and it seems to me that if the Department of Health states that no Municipal Hospital District is exceeding the rate of taxation outlined in the original scheme voted on by the ratepayers, and that none of them is charging more than 3c per acre on the average quarter section, it ought to satisfy any reasonable man.

What each individual has to decide for himself is whether he considers the present Hospital is capable of giving the sick people of this community the service they require now and for the next 20 years. I do not think the present Hospital is able to give such service, and a Municipal Hospital offers the only solution so far as I can see, and that is the reason I am going to vote for it.

The question for each individual to consider is whether he is prepared to pay a small tax for the privilege of getting a new and modern Hospital to serve his family and the community at large for \$1 per day. This tax is in the nature of a premium on a policy which protects me and my family against a heavy outlay for Hospital treatment and places the service of a good hospital at my disposal whenever I need it. I don't know what I will do if I have to pay for it, but I want to have it. I don't want to be in a position where I have to pay for it. I don't want to be in a position where I have to pay for it. I don't want to be in a position where I have to pay for it.

I can understand some large land holders opposing it, and I can see where some farmers have caused complaint who live in a district where the combination of high assessment and a high mill rate makes the Hospital Tax larger than it should be. Their attitude is logical, and not open to question on business grounds. If any such are big enough to support the scheme, we must give them credit for looking at the proposition from the broad viewpoint that they want to do something for the benefit of the community in which they live, and are willing to make some sacrifice for the common good. The average farmer, however, undoubtedly benefits by the Hospital scheme, and should support it on both business and moral grounds.

PRO BONO PUBLICO.

THE DOMINION ELECTION The Editor, Wetaskiwin Times.

Dear Sir:

It seems, from my observations in several Federal Constituencies, that the people generally are looking for a change.

The low prices of farm commodities

LIMBER MUSCLES NOW ASSURED

With the summer sports well under way—ball, rowing, swimming, golf, tennis, etc.—lovers of outdoor games will find that a good brisk rub-down with Absorbine, Jr., will prevent the stiffness which usually follows strenuous or unusual exercise.

Absorbine, Jr., will also keep you in trim throughout the season... it arouses circulation, breaks up congestion, soothes and refreshes sore, tired muscles—the athlete's favourite rub-down after any game. And as a first aid it takes the pain out of cuts, wounds, bruises and sprains.

Absorbine, Jr., is both antiseptic and liniment... not only does it relieve pain and stiffness, but if the skin has been broken, it reduces to a minimum any danger of infection by promptly destroying the disease germs. It is not greasy and does not stain. \$1.25 per bottle—at your druggist's.

Raymond, Alberta

seems to have brought a great degree of determination on the part of farmers which will affect the vote to be taken next Monday.

It is significant that when the Hon. Chas. Stewart spoke at Lacombe last Saturday he made not the slightest reference to the Australian Treaty and its extension to New Zealand. It was evident that he had no defence of it which would be accepted by a community which is largely occupied in pulling its.

Bolled down Mr. Stewart's speech was simply a laudation of the Liberal administration; and of himself, of course, as a member of it. But he did discount Mr. Irvine's claim, the U.F.A. claim, that their group was responsible for all the good legislation passed by the House of Commons in recent years, for he pointed out that all legislation is discussed first by a closed Liberal caucus and there decided upon. The U.F.A. members, Mr. Stewart says, are not admitted to this law-making foundry. This seems unkind, because, as a member of the U.F.A., Mr. Stewart claimed that in four years all the Progressives would be Liberal; that being the reason why, at many points, no Liberal opposition candidates were nominated. They were Liberal enough, he claimed.

I saw the other day no less than thirty unemployed on a freight train. This in July, a month of plenty which is now in my 22 years of experience in Alberta. No remedy was offered by Mr. Stewart, in fact he would have us believe that there is no emergency. I heard Mr. Hayhurst speak and

conclude that he will not make a successful politician until he forgets that he is not addressing school age pupils. There is more intelligence and downright practical knowledge in any audience of men than Mr. Hayhurst seems to realize.

Mr. Russell is seeking to represent the constituency as a supporter of a party which if successful, will make a clean sweep of cabinet positions. The leader of that party promises a vigorous policy which it is claimed will bring about better conditions in the whole of Canada. Mr. Russell has the greatest possible respect of a very great number of people whatever their political opinions may be. He will poll a vote which will probably surprise even his supporters. His popularity is probably causing Mr. Irvine some loss of sleep and causing him to make some rather wild promises. Loans at 1½% which, of course, is quite ridiculous.

Mr. Hayhurst seems to be merely

a forelorn hope. Irvine has hopes born of the exuberance of his verbosity, while Russell may hope Irvine because of the widespread desire for a change in government and because of the high regard in which he is held; because of his ability, his integrity and his genuine sincerity of purpose.

Yours sincerely,
J. H. HODSON.

LET PEOPLE KNOW

Reader—If you find The Times bright and interesting, remember that you can make it even more attractive if you mail or telephone the editor all the personal items you can think of. Have you visitors at your home? Are your neighbors entertaining guests? Have any members of your family gone away on a trip? Are your friends out of town? Do you know of new residents coming here to settle? Have you bidden good-bye to Wetaskiwin-folks who are to make their homes elsewhere? Let The Times know.

Pains In Her Back Suffered Terribly

Mrs. E. Connell, 46 Lowell St., Galt, Ont., writes: "I suffered terribly from pains in my back caused by kidney trouble. A friend told me to try Doan's Kidney Pills. After taking one box I was greatly relieved, and after I had taken the second box the pains had all gone. Now I feel like a different woman, and do all my own work."

Price 50 cents a box at all druggists. Dealers mail direct on receipt of price by The T. Millman Co., Ltd., Toronto, Ont.

July 21st, 1930

To the Electors

of the Federal Constituency of Wetaskiwin—

Ladies and Gentlemen:

I have been nominated as an Independent Conservative to contest the Federal Riding of Wetaskiwin in the pending Election, and through the columns of this newspaper, beg leave to solicit your support.

A great many issues have been discussed during the present campaign, but it is submitted that the most important are the widespread unemployment existing and the generally unsatisfactory economic conditions prevailing. We are more particularly concerned with these conditions as they affect the farm industry.

It may be argued that the Government can do little to affect the prosperity of the farmer, but it is submitted that the Government of Canada can assist agriculture by obtaining and keeping for him, markets for his products. What is the situation that faces the Canadian Farmer as he looks out upon the world in search of markets?

We find that the United States by the adoption of the Hawley-Smoot tariff, has erected against our farm products the highest tariff wall in the history of the relations between these two countries. This has been done after a policy of nine years of looking to Washington. When we look towards Europe, we find that France, Italy and Germany have erected similar tariff barriers of 80c to 90c a bushel. So far as Great Britain is concerned, which is in some respects our most important market, we find that so far as wheat is concerned we have lost our standing in that market for the time being at least. Denmark, New Zealand and other countries are supplanting us in that market in respect of meats and dairy products. The acute business depression which the farmer should be absolutely entitled to, we find that our dairymen and others are subject to unfair competition. Every farmer knows the damage resulting to the Dairy Industry from the New Zealand arrangement entered into in 1925. To obtain a market for the manufacturers of automobile parts, paper and canned salmon, the dairymen of the country were sacrificed. In 1925, we were exporting about 25,000,000 lbs. of butter, and now we are importing from New Zealand at the rate of 40,000,000 lbs. of butter annually. After five years of inaction the Government has finally abrogated the arrangement with New Zealand and other countries that will put an end to unfair competition and that will enable us to make arrangements with other countries of advantage to our producers. We are the best customers of the United States and it should be possible to adopt a fiscal policy that will enable us to gain some concessions in that important market.

It is submitted that it is most important at this time to make every effort for a mutually advantageous trade arrangement with Great Britain. The time seems to be ripe for such negotiations and it is very important that Canada have the proper representatives at the Empire Economic Conference to be held in September. The issues of this Conference may be most important and may affect our Commercial and Imperial relationship for a generation.

In the matter of unemployment which has reached a very acute phase in Canada, the course of the Government has apparently been characterized by failure to realize the situation, by a denial of responsibility, and by antagonism to the claims of the provinces and municipalities.

It is submitted that the time is opportune for the adoption of a "CANADA FIRST" policy so that we may realize the greatest benefit for our people from the great natural resources which we possess. We believe also that the present is no time in the history of this country for the laying of emphasis on class differences, occupational or otherwise, but that the policy of Statesmen should be to think in terms of "Canada as a whole."

It is impossible in the course of a brief letter to deal with any of the issues in an exhaustive way and I probably cannot do better than recite the Conservative Policy as enunciated by Mr. Bennett at Winnipeg on June the 9th, 1930.

"1. We pledge ourselves to a policy of protection for Canadians in the development of our natural resources, our agricultural and industrial life, and of our consumers from exploitation."

"2. We pledge ourselves to foster and develop agriculture and the livestock and dairy industry."

"3. We pledge ourselves to the stabilization of economic conditions and to continuity of trade and freedom from the manipulation of home and foreign tariffs."

"4. We pledge ourselves to the stabilization of interprovincial trade, of a Canadian fuel policy and the development of foreign markets."

"5. We pledge ourselves to foster and support a plan for greater Empire trade based on mutual advantage."

"6. We pledge ourselves to a national old age pension scheme."

"7. We pledge ourselves to provide such compensating adjustments as will ensure the benefits of the above policies to every part of Canada."

In conclusion, I can only express regret that I can see personally so limited a number of the Electors of the Constituency, but I can assure you that, if I have the honour to be elected, I shall have no other ambition but to serve this constituency, where I have lived for sixteen years, to the best of my ability.

The Town Act and the Union

(By J. Fitzallen, Vegreville)
(Research Bulletin)

The Bulletin has not the space, its readers have not the patience nor has the writer the time and inclination to attempt to make an analysis of the Town Act or other statutes relating to Municipal government. It is proposed however to direct attention to some of the contradictory provisions, obscure inferences, and rank omissions of and in these parts of the Town Act dealing with assessment, taxation and licensing.

In the first place let us consider Sec. 292 relating to Business Tax. Under the old Act, where the rental value basis was used, the resultant tax consisted of a certain percentage of the annual rental value of the business premises assessed. The percentage might be varied in respect to different lines of business, and the amount thereof, whether 2%, 5% or 10% was specified in the Business Tax By-Law. Business tax notices could be issued long before the ordinary municipal rates were struck, and consequently through the early realization of business taxes, bank borrowings could be kept to the minimum, and the taxpayer be spared the hardship of digging up the business and property taxes both at the same time.

Why, or for what good reason, was the foregoing procedure changed?

Now let us see what has happened. The procedure contemplated by the Act of 1927 (and certainly no other procedure is by it authorized) is this: The annual rental value of the business to be assessed is treated in like manner to property assessments, goes through the same procedure regarding appeal and confirmation of the roll, and finally becomes subject to such rate or rates for general or school purposes or both, as may be struck for the year by Council, following on the adoption of the roll for the year.

Now let us examine the effect of thing. The Act as it now stands evidently contemplates the consolidation of Municipal and School rates into one "indistinguishable" levy regardless of the differential that may exist as between Separate and Public School requirements. It would therefore appear that the total rate inclusive of Schools, should be applied equally on Business Assessments. Let us see how it works out. The yearly rental value of the premises occupied by a small grocery store will be assumed to be \$600. The consolidated tax rate for the year is \$9.00. The resultant tax payable by the grocer is \$5.40. Upstairs in the same building, we will assume, a professional man has an office with a yearly rental value of \$120, which is likewise subject to a rate of \$9.00, no more and no less. His tax is \$1.08. The reader will note that sub-sec. 1 of Section 292 which reads: "And may fix a different rate of taxation with respect to each or any business, trade, or profession," was by amendment in 1929, struck out.

Assuming that we are not satisfied with a procedure that produces results as inequitable as the foregoing, what are we to do? As an alternative let us turn to the floor space method of arriving at Business Tax assessments. Here we can at least in a measure apply the principle of equity. We can assess the physician's office at as high as \$10 per square foot, and the merchant's as high as \$5 per square foot, and apply the consolidated tax rate to the assessment so arrived at. But when we come to a brokerage office for instance, the maximum is \$2.50 per square foot. Can you beat it?

Now regarding the consolidation of School and Municipal requirements into one levy which the Act, as amended indicates. What about Sub. Sec. 4 of Sec. 364? This latter provides that in the event of collections in any year exceeding estimates, that such portion thereof as comprises School collections shall be held to the credit of the School. Are the taxes for all purposes to be consolidated into one levy or are they not? If we are to consolidate the levy, how are we going to know what part of the surplus collection belongs to the School District?

And now regarding licensing. Certain provisions in this respect are conferred by Sec. 163 and subsequent provisions. Let us particularly consider the following: Sec. 164 reads: "The license fees hereinafter permitted shall not be imposed for the purpose of exacting revenue." Obviously from the foregoing a license can only be provided for purposes of regulating the business of the person requiring to be licensed. Immediately the Town imposes a license fee of an amount greater than the actual cost to the Town of regulating the business in question, it violates the Act because it is patently an exacting a fee that is in part at least imposed for purposes of revenue. If any one doubts this, let him look up certain recent court decisions. Why worry then as to whether or not the power to license certain transient traders is withdrawn or not? Quite obviously the cost to a Town of regulating the conduct of a Transient Trader who spends a day in town is strictly nominal, and likewise, under existing legislation, the fee must be no more than strictly nominal too. And what about such Transients as Travelling Shows and Circuses? Does anyone imagine that we can justify the fees

we usually impose, on grounds of regulation alone?

And now for some of the omissions. Many Towns have adopted the Fire Underwriters form of By-Law prohibiting electric wiring by other than persons licensed for the purpose. It's all right as far as it goes and until someone who is not licensed persists in doing electric wiring. Then the Magistrate quite naturally wants to see the authority of the Town for passing such a By-Law, and you can't show him it in the Town Act. Like many other things it's all right as long as you get away with it, but there comes a time when you have to show the Judge and then it's not quite so good.

And what about Live Stock Dealers? The new Act provides for the licensing of "Cattle Dealers and Horse Dealers." It is quite easy to justify a \$25 fee because of the year round supervision over stock yards that is necessary. But what about Hog Dealers? Are their premises any the less deserving of regulation or supervision? And regardless of what the Domestic Animals or any other Act may do, the Town Act does not define "Cattle Dealers and Horse Dealers" as including Dealers in swine, sheep or other domestic animals. If you think it does, try and get a conviction. And let me say right here that there is nothing more demoralizing or that so readily shakes public confidence in a Municipal Administration as the spectacle of unseemly police court prosecutions.

And what about the powers we formerly enjoyed to license and regulate the conduct of hotels, rooming houses, cafes, restaurants, and certain other lines of business? The writer has been told that certain of these powers were withdrawn because of licensing measures adopted by the Provincial Government and that there must not be duplication. But on the other hand, duplication still exists, and is clearly anticipated by Sec. 166 which provides that the Municipal License shall not issue to one required to obtain a Provincial license until the latter has been secured.

Now one could go on with citations such as the foregoing indefinitely. The Act from cover to cover contains a maze of contradictory inferences, and most of such provisions as are definite and understandable are either impracticable in application or entirely superfluous.

Now wherein lies the fault, or what is the remedy? Should the Union, as has been suggested, employ a Legal Adviser to serve as interpreter of the Act as it now stands, or should we have an Act that in its provisions would be sufficiently clear-cut, practicable, and definite as to eliminate the possibility of misinterpretation? Surely it is possible to get the latter. The Deputies, and from personal experience I know Mr. English to be no exception, live at all times bent over to receive practical suggestions from the Union. Personally the writer feels that the fault lies with us. Too much of our time at the annual convention is devoted to listening to pleasing generalities, and too little to a list of hastily prepared and half digested resolutions. Many of the latter when finally emerging from the legal draughting Department of the Government in the form of legislation, bear a very different meaning (if any) from that contemplated by the original mover. Too many of such ignore related legislation that is permitted to remain in force.

I am quite free to confess that the City Delegates are usually the more outstanding and capable of those attending the Conventions. It is therefore quite natural that they should exercise a rather dominating influence. But it must not be forgotten that they are with a few exceptions entirely ignorant of the provisions of application of the Town Act and of the problems confronting a small town administration. Now my suggestion is this: The Cities, Towns and Villages, as separate groups, have had problems and operate under legislation that is peculiar to each. Let us function during the Convention for one day, as three separate and distinct sections. Let the Town section deal with resolutions that affect solely the Town Act, and the other sections during the same period transact such business as may be strictly theirs. Then let the three sections unite in one assembly for the consideration of resolutions of universal application. Let

the Town's section appoint its own Legislative Committee which should consist primarily of men with long experience in the administration of the Town Act. Provide that, instead of a hasty half hour interview with Government officials on the eve of the assembling of the Legislature, that this Committee shall function throughout the year in an advisory or consulting capacity with or to the Department. In short, appoint a Committee empowered to act as the permanent Legislative representatives of the Town's Section of the Union. I am sure that the Deputy Minister and his officials would be glad to go into session with such a Committee for one day or two days or more if necessary each year, and that from such a contact there would emerge and be preserved a Town Act that would be practicable and understandable; that there would be devised a uniform set of by-laws that would be available to all Towns desiring to enact them; that forms of assessment and tax rolls could and would be devised that would prove better adapted to the purpose than those now in use; that other standardized books and forms could be profitably revised and that others could be devised and standardized that would be acceptable to all. I believe in short that a committee of men, long experienced in Municipal accounting and Town administration could, if afforded the opportunity, make some real and worth-while contribution to legislation and Departmental regulations affecting the conduct of Town business and government. This principle is clearly recognized in British Columbia, where a committee of the B.C. Union is kept on salary by and in the Department of Municipal Affairs as the authorized representative of the Union. I don't advocate any such appointment, but I do feel that there is ample material available and willing to serve without charge, on a committee designed to function as I have before indicated.

WHEN ADAM WAS A KID

(Contributed by S. C. Paschal, P.G.P., Coifax, Iowa.)

There ain't much fun in living now, For little kids like me, Cause everybody's down on us An' folks won't let us be. It didn't use to be that way When Adam was a kid.

He didn't have to go to church, An' Sunday school an' such; Nor wash himself nor brush his hair Nor sit up straight—not much! He done whatever he'd a mind—For nuthin' was forbid— You bet that boys had jolly times When Adam was a kid.

If he went through a melon patch, As kids most always do, He didn't have no bid to take An' lick him black and blue; An' when he heard his mother's voice He never run and hid— Boys didn't have no pa an' ma When Adam was a kid.

The world, folks say, is wiser now, And better, too, than then. But I can't see that later times Turns out much better men. Maybe we've got more books an' schools Than what the ancients did, But people had more commonsense When Adam was a kid.

I wish times would come again To little kids, once more, An' let the world wag on ag'in Just like it did before. Who wouldn't like to be a boy If he could live amid Such bully, bully times as them When Adam was a kid.

SILVER FOX RANCHING IN CANADA

(By Dr. J. H. Grisdale)

Canada was the first to develop the breeding of silver foxes in captivity and she has so maintained her position in this respect that she is regarded as world-leader by all other countries, whose representatives periodically visit the Dominion in search of knowledge and advice in the conduct of similar undertakings. While silver fox ranching has been exploited here and there by individuals who have been stressing its financial possibilities, yet the industry as a whole has developed along sound and economic lines, due in the first place to the foresight of the pioneers and to the valid and conservative methods of the fox breeders of Prince Edward Island who nursed the silver fox industry through its infancy.

The Canadian National Silver Fox Breeders' Association is the largest breed society in the Dominion and registers annually a larger number of pedigreed animals than is to be

Here and There

(103) Prince Iyosato Tokugawa, president of the Japanese House of Peers, and his son, Hon. Iyegao Tokugawa, Japanese Minister to Canada, met recently on board Canadian Pacific liner Empress of Russia. The Prince was on his way to London to attend the Inter-Parliamentary Conference and took the opportunity to see his son who had come to Victoria from Ottawa to meet him.

Leaping into shark-infested waters in the China Sea halfway between Hong Kong and Shanghai, Carpenter Tom Ellworthy, of the S.S. Empress of Russia, saved the life of Mrs. Makareff, passenger on that ship, who had jumped overboard in a fit of dementia. The woman strongly resisted efforts to rescue her and 4th Engineer Dennis went to Ellworthy's assistance. The two men succeeded in bringing her back aboard ship after long and exhausting struggles.

Beating the world's record in passenger train operation, Western Canada comes into the limelight this year with the 1525 mile continuous run from Fort William to Calgary of the Canadian Pacific locomotive number 2808. A number of locomotives of this class are now being built by the company equipped with roller-bearing boxes which will still further facilitate engine operations on long runs.

The season's first climb of Mt. Temple, 11,600-foot peak in the Rockies, was made last week by Dr. Thorington of Philadelphia, Pennsylvania writer and alpinist, and W. Kerr, of Vancouver. Edward Feuz, doyen of Swiss guides in the Rockies, was in charge of the climb which started out from Chateau Lake Louise at three in the morning and reached the summit at ten.

With the opening of the New Pines Hotel at D'Arcy and of the Algonquin Hotel at St. Andrews-by-the-Sea at the end of June, the tourist season in the Maritime provinces is now in full swing. Reservations at both hotels are very heavy, forecasting a prosperous season.

Difficulties met by Canadian and United States motorists when taking their cars to Europe have been overcome by facilities afforded by the Canadian Pacific Railway. Under which the owner can ship his car as baggage between Canada and European points in either direction. The company arranges for the necessary customs and registration documents for every country to be visited, driving licenses, license plates, and membership in the Royal Automobile Club. The car is unloaded within an hour of the ship's arrival and is at the owner's disposal and a small supply of gasoline and made ready for the road. There is no baggage and no bond or other financial guarantees required.

Believed to be the largest salmon ever taken by fly on the Midway River, Cape Breton, Ardie Joudry, 42-year-old fisherman, weighed 42 pounds and was 42 inches long with a girth of 21 inches. The fish has been photographed for exhibition in the Saturday Evening Post.

The railway grade crossing problem is not a problem of the railway making but essentially a "social problem" and responsibility for its solution rests upon society as a whole, in the opinion of W. P. Borthand, Chief of the Bureau of Safety, United States Interstate Commerce Commission.

found in any other species of live stock. The 70,883 silver fox pups born in 1929, and registered by this association, are descended from less than a score of silver foxes taken from the wild by the pioneer breeders. The remarkable growth of the silver fox industry is indicated by the figures of the last four years, taken from Canadian Live Stock records, of silver fox pups registered by the above association: 1926, 32,365; 1927, 39,767; 1928, 51,624; 1929, 70,883.

While Prince Edward Island is still the cradle and home of the industry, silver fox ranching is being firmly established in practically every province of the Dominion, and is operating on a very large scale, more particularly in the province of Quebec. Silver fox ranching has also become established in a great number of European countries, and heavy shipments of live foxes are made annually from Canada, 2,558 having been exported from Prince Edward Island alone in 1929.

While there has been a larger sale of live silver foxes as breeding stock during the last few years than ever before, yet these animals represent only about 25 per cent of the silver foxes produced. The main function of silver fox ranching is the production of pelts. In fact, a large number of the ranches are no longer interested in the sale of live foxes. As a consequence there has been a rapid increase in the number of silver fox pelts coming into the market, but as the number has increased, a wider and more general interest has been

Notice to Ratepayers

The Minister of Health has finally approved of the Municipal Hospital Scheme as submitted by the Hospital Board, and has ordered that a Vote of the Ratepayers be taken on the

7th Day of August, 1930

From 9 a.m. to 6 p.m.

The persons entitled to vote on the scheme shall be all persons who are liable for Municipal or Improvement District Taxes and the husband or wife, or father or mother, or son or daughter of the aforementioned persons, who live within the hospital district, and are liable to pay Municipal or Improvement District taxes therein, and who are of the full age of twenty-one years and live with the said wife, husband, father, mother, son or daughter.

I hereby give notice that on Thursday, the 14th day of August, at the hour of two o'clock in the afternoon, at the Office of Howatt & Howatt, in the City of Wetaskiwin, I will open the ballot boxes and officially declare the vote for or against the said scheme.

BRUCE D. HOWATT, Returning Officer.

IMMIGRATION PROBLEM

(Research Bulletin)

(Copy of resolutions passed, and Premier Brownlee's reply.)

Wetaskiwin, Alberta, April 3rd, 1930.

Hon. J. E. Brownlee, Sir:

At the last regular meeting of the City Council the following resolution was passed: "That this Council go on record as protesting against the promiscuous dumping of immigrants in this district without any apparent prospects of finding suitable employment for them and that the Provincial Government be asked to take the necessary steps to prevent any immigrants becoming a charge upon the Municipalities for their maintenance, as this Council hereby declines any financial responsibility in the matter of such immigrants." Yours respectfully,

J. E. FRASER.

I have your letter of the 3rd inst. with resolution passed at the regular meeting of your City Council.

I may say, in reply to this resolution that the Provincial Government has already gone as far as it is possible for us to go in the support of this resolution. We have definitely requested the Dominion Government to cancel all existing arrangements with respect to immigration into this Province this year.

In brief, we have intimated to the Dominion Government that we wished all form of immigration stayed until we feel we have caught up with the problem of assimilating those who have already come into the Province in previous years. Yours very truly,

J. E. BROWNLEE.

A Mr. Blake, representing the Calgary Knitting Co., Ltd., a small outfit of about half a dozen people, Asiatics, is informed.

My Council had a meeting with Mr. Blake the other day asking I don't exactly know what, as he was far from specific in his demands, which I took to be a modification of the terms of our By-Law affecting pedlars. We gathered from what he said that he had been attending meetings of town councils throughout the Province with this object in view leading these parties to believe that the bill is not dead yet, and he speaks of an amended bill, of which I have not heard, and I gathered from what he stated that he was getting concessions for his Company on that representation.

Will you be good enough to inform me how the matter stands, and whether this party is correct in stating that the matter of the proposed legislation is not at an end so far as the Government is concerned?

I should also like to know whether when a bill of this nature is introduced affecting urban municipalities is not our Secretary advised, so that the Union may have an opportunity of considering such.

Had this bill become law it would have worked a hardship on urban municipalities, especially towns and villages, as the competition of pedlars is hard on the business men, whom it seems to me the Government should protect, and not pedlars who are a detriment to a business community. The prehistory with which this outfit deals with the matter proves that it does a good business to the loss of the business of the small communities, as I have already stated.

WANT AD'S

FOR SALE

FOR SALE—Will sell at a sacrifice price. 25-50 Sawyer-Massey Gas Tractor; 28-46 Faulkner Separator, complete with feeder, weight, blower and belts good as new; in perfect condition. If you want the bargain of your lifetime, call or write, or phone W. J. Bleiler, Wetaskiwin. Phone R905. 17-2m

CHATS WITH DAREDEVIL RACING CAR DRIVERS

That the automobile racer risks his life in every event in which he takes part taken for granted by most of us. We let the matter drop there. If someone feels like taking his life into his hands for a few paltry dollars, let him go ahead and do it. It doesn't make the slightest bit of difference so far as we are concerned. But it does have the chance of living with these demons of the speedway for just a few days one would have no difficulty in seeing that, after all, they are earning their daily bread the same as we are and think nothing of the dangers into which they thrust themselves. In fact, some of them try to figure out why on earth some people want to work on top of a thirty-story structure for a dollar and a half an hour when he can earn from \$500 to \$1,000 a day.

They are human. They have wives and families. They have respectable homes and as soon as they receive their pay envelope they send the bulk of it home. They think nothing of their hazardous work, for they have not time. They are up first thing in the morning, and right after breakfast taking their cars around the track to see if everything is shipshape for the day's events. Most of them admit that they are just a bit "keyed-up" as one put it, before the start of the race, but after that there is nothing to worry about unless an accident happens. And it is at that

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF FRANK GUSTAV KLYFT, late of the City of Wetaskiwin, in the Province of Alberta, Deceased.
Notice is hereby given that all persons having claims upon the Estate of the above-named Frank Gustav Klyft, who died on or about the 20th of May, A.D. 1930, are required to file with The London & Western Trusts Company, Limited, of the City of Edmonton, in the Province of Alberta, Administrators with the Will annexed, or with the undersigned Solicitors by the 23rd day of August, A.D. 1930, a full statement duly verified of their claims, and of any securities held by them, and that after that date the administrators will distribute the assets of the Deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to their knowledge.

Dated This Seventh day of July, A.D. 1930.

SPORT

BASEBALL

The Wetaskiwin baseball team has entered the tournament to take place in Camrose this week, and we understand they are drawn to play Mirror on Friday afternoon. There are ten teams entered in the tournament.

A league game was played on the Wetaskiwin diamond on Monday evening last. The Wetaskiwin Athletics were in great form and defeated Hobema to the tune of 15-0.

The Athletics have three tie games in the league, and we understand these will be played off shortly. The Athletics are now going strong and should have little difficulty in coping with the teams which, if they do, will put them at about the top of the league.

GOLF NOTES

Messrs. Fritz Kirstein, Alex Knox and W. Shields represented the Wetaskiwin Golf Club at the tournament held in Red Deer last week. Mr. Shields succeeded in winning one of the prizes.

The annual tournament of the Wetaskiwin Golf Club takes place on August 10th and 11th, and it is expected that this event will be the best ever put on by the local Association. Nothing will be left undone to give the golfers on this occasion a first-class time.

stage of the game that the alert mind of the automobile racer saves his life in many instances, for it is seldom that one hears of a driver being killed while on the track.

At the recent Shrine convention in Toronto some 49 of the most outstanding drivers from all over the United States were in town and thrilled thousands in front of the grand stand. Having nothing to do for a few days, I decided to try and find out just what some of them would say if they were asked what were the most thrilling experiences in their lives.

Ted Kessler, who runs a garage near Buffalo, in his spare time, stated that his most exciting moment occurred last Memorial Day on one of America's prominent tracks, the name of which he did not care to tell. Norval DeLely, whom Kessler was trailing, crashed through a fence and struck a telephone pole with such force that it cracked and toppled over in such a position that the wires ran across the track about three feet from the ground. One wire caught Kessler under the chin, and the other under the side of his face. Fortunately he had the presence of mind to tilt his head backward and sideway with the result that the wire slipped over his helmet. However, he will always carry a nasty scar to recall the incident.

Of course, Norval DeLely's story was a repetition of the first part of Kessler's. As soon as he saw that he was leaving the track he ducked and was not much harmed.

Herman Schuch of Hollywood, whom one is attracted to immediately because of his pleasant smile, which seems to fit in with his red tie, black shirt and white "ducks," had many interesting yarns, but none were as hair-raising as that in which he and many spectators were almost killed outright. The event was being run in a "sunk bowl," the track of which was made of wood. While travelling at the rate of 90 miles an hour, his front end hit the oil on the wood and turned three complete circles and landed on the gravel at the bottom of the bowl. It turned another circle and then shot forward. Fortunately, his car plunged in the right direction, for, despite the time lost, he finished second in the race.

Louis Hornbrook of Ithaca, has the distinction of being the only driver in his memory to complete a full lap at top speed with his steering gear out of commission and to finish among the first three. He stated that that was thrilling enough. Myron Fultz, whose home is in Syracuse, had any real accidents, but he admits having crashed through several fences—without being hurt. Freddie Frame of Los Angeles, who broke the half mile record for a dirt track in Canada, doing that distance in 28.45 seconds on the opening day of the meet in Toronto, turned over a number of times on a track in Texas, his car landing just a few feet in front of hundreds of spectators. He blamed the heavy dust on this catastrophe. And so it goes right through the list. From the 45-year-old grey-haired veteran of the speedway, Ralph De Palma himself, down to the newcomers, all have had what one might call their most thrilling experience, but as yet, none of them compares with those related above.

WHOLE FAMILY HAD DYSENTERY

Dysentery is one of the worst forms of bowel complaint and should be checked at once as its termination often proves fatal.
Mrs. H. F. Stewart, Findlater, Sask., writes: "Two years ago we were all very bad with attacks of dysentery. My husband got a bottle of Dr. Fowler's Wild Strawberry and after taking three or four doses we were completely relieved. Since then we have never been without a bottle of it in the house."

Neighborhood NEWS

FALUN

A representative meeting was held in the Falun school house on Monday evening, to consider the proposed "Wetaskiwin" Municipal Hospital scheme. V. C. French was elected as chairman, and the principal speakers were Mr. V. C. French, H. J. Montgomery and W. Prest, who reviewed the hospital situation at the present time and stressed the importance of having a new building erected at the earliest possible date. The present scheme to be adopted was the one sponsored by the Department of Health, which would be erected on the most modern lines and would be up to a standard equal to any other hospital institution in the Province.

Mr. Montgomery explained how the hospital would be financed, and emphasized the fact that the cost would not exceed an average of 3c per acre to any ratepayers in the Municipal District of Bigstone. A number of questions were asked and answered to the satisfaction of the questioner. The meeting went on record as unanimously approving of the proposed Wetaskiwin hospital scheme, and it is expected that a large favorable vote will be polled in this district on August 7th.

Wm. Milton proposed a vote of thanks to the speakers for the thorough manner in which the scheme was outlined, after which the meeting closed with singing "God Save the King."

NEW NORWAY

The Misses Isahell and Mary Tate of Camrose, were guests several days last week of Miss Wanda Curry.

Little Miss Doris Murphy of Wetaskiwin, is spending her holidays at the B. Baller home.

Grandma Howie spent last week in Ferintosh at the Ed. Wright and Chas. Mitchell home.

Mr. Wm. Meyers was brought home from the Camrose hospital last Saturday and was taken to Wetaskiwin on Monday, where he is taking treatment from one of the local doctors.

Miss Mildred Davis, spent the week-end at the Art Newman home near Wynne.

Mrs. H. Davis entertained the girls in Miss Mildred's Sunday school class last Monday afternoon, in honor of her mother's birthday.

Miss Mary Perkins is spending the week with her sister, Mrs. Robert Benke, at Bashaw.

Miss Mary Jacobs, of Camrose, Ill., a relative, is making an extended stay at the John Trautman home.

Mr. and Mrs. J. A. Meyers and family and Mr. Carl Hoyer, spent the week-end at Battle Lake.

The Misses Edith Johnson and Amy and Florence Backstrom were among the campers at the Bible camp at Pigeon Lake last week.

Miss Carrie Trautman was a guest at the P. Sherbeck home at Killam, last week.

The Zion Ladies' Aid are holding a lawn social at the Earl Uppshaw home on August 30.

A happy game between the married and single men of the neighborhood is expected to be a very fast close game and will start at 6:30 sharp. There will also be a musical program.

Mr. Carroll Smith of Stettler, spent the week-end at the Earl Uppshaw home.

Master John Maynard of Wynne, spent last week at the Jess Meyer's home, while little Miss Grace Meyer is visiting at the H. Maynard home at Wynne.

Miss Dorothy Butler and Selma Hornbrook of Ithaca, were among the campers at the Bible camp at Pigeon Lake last week.

Mr. and Mrs. J. P. Beller, Grandson Meyers, Mr. and Mrs. Emil Pearson and two sons, Mr. and Mrs. Elmo Beller, and Mr. and Mrs. Chas. Colton were having an outing at Pigeon Lake over the week-end, and visited Mr. and Mrs. J. Jackson, who are in charge of a motor boat at that place.

Hazel Wempe, who has been visiting her parents, Mr. and Mrs. W. Meyers, for the past two months, left for her home at Winsor, S.D., on Sunday.

Word has reached here from Sweden, that Grandpa Stromberg's health is in a very serious condition, and the doctors have ordered him to return at once. Mr. Stromberg, in company with his daughter-in-law, Mrs. Joel and Mrs. Mrs. Stromberg, sailed in May to spend the summer in Sweden.

The neighbors gathered at the James Butler home last Monday evening and held a lawn party in honor of Miss Ida, who leaves on Tuesday after a three week's holiday to resume her

last year in training as nurse at the General hospital in Edmonton. The evening was spent with games on the lawn, and music, and singing. Refreshments were served.

Mrs. Noah, Solberg, and two small sons, of Ryley, came to visit her parents, Mr. and Mrs. James Butler, and other relatives.

Lester Hamron, who has been a patient in the Camrose hospital for the past six weeks with a fractured arm, was removed to the home of his grandparents near Olaton. Every effort is being made to try and save his elbow from being stiff.

Mrs. Greenwald, who has been a patient in the Wetaskiwin hospital for the past six weeks, was removed to a friend's home in Wetaskiwin last week.

J. E. Fraser, R. W. Manley and H. G. Cooke of Wetaskiwin, gave addresses last Thursday in the Hoover school in behalf of the proposed Wetaskiwin Municipal hospital.

Mr. and Mrs. Tom Tunnie and daughter, spent last week in Edmonton, visiting the former's mother, and taking in the Exhibition.

Mr. Floyd Bortoff is seriously ill with the stomach flu.

During the absence of Mr. Tunnie last week, Mrs. Harry Butler was taking the part of chore boy, and when trying to milk, was knocked over and trampled on by one of the cows. After a thorough examination it was found it was only a very bad bruise.

Mr. Elneron and children were called to Edmonton on Monday to be at the bedside of Mrs. Elneron, who is seriously ill.

NEW NORWAY WEST

Mr. Julius Dahms of Puyallup, visited with his daughter, Mrs. P. Trautman, during the past week.

Mr. and Mrs. P. Trautman visited at the home of Mr. and Mrs. Thorwald Jevne last week. Mrs. G. Reck-agle, a sister of Mrs. Trautman and Mrs. Jevne, who has not been here for thirty years, is also visiting with her sisters.

WINFIELD

The annual Pendry picnic was held on July 18th, near Pendry hall. The Winfield ladies' softball team went out to play, and returned badly defeated. Also the Pendry baseball team won from the Winfield boys, the score being 2-1. A dance was held in the hall in the evening.

The wild strawberries are fairly thick this year, and the householders of Winfield vicinity are kept busy picking and canning.

The Winfield Local U.F.A. held a meeting on July 19th, at the home of Mr. and Mrs. E. A. Taylor. On the resignation of Miss Minnie Githner being accepted, Mrs. Taylor was unanimously elected secretary in her place. At its next meeting, August 1st, a discussion of the Municipal Hospital scheme will take place.

The new store and warehouse being erected for the Winfield Trading Co., are rapidly nearing completion.

Rev. H. A. Barton of Breton, spent a few days last week visiting in Winfield and vicinity.

Mr. E. V. Clarke had the misfortune to injure his foot by treading on a nail.

Several citizens of Winfield and surrounding territory, were holidaying at Ma-Me-P. Beach, Pigeon Lake, recently.

Mr. S. H. Carter reports that his

This talk was greatly enjoyed by the seniors.
A paper on the "Futility of Worrying" by Mrs. Hoskins, brought an interesting and profitable afternoon to a close. A dainty lunch was served by the hostess, assisted by Mrs. Dowdell.

The August meeting will be held at the home of Mrs. H. G. Young. The roll call will be "Simple Labour Saving Device." The Millet U.F.W.A. will be the guests of the Hillside Local. Mrs. L. W. Marr will speak on current events, and Mrs. Dowdell will give a paper on "Social Hygiene." There will be a short program. All ladies are invited to these meetings.

Another petty robbery is reported by the Winfield Trading Co. About a month ago four spoils of wire disappeared from in front of the hardware store. It seems too bad now, when Winfield has been so free from such happenings, that all this should occur.

A successful aluminum demonstration was held at the home of Mrs. L. B. Marr last Friday evening, when some six couples learned how to cook vegetables without water.

Mrs. E. R. Hoskins spent the week-end with her parents in Edmonton.

Mr. A. G. Moore, Dairy promoter, is in the district this week.

The Junior U.F.A. are meeting at the home of Mr. and Mrs. H. G. Young this Thursday evening, July 24th.

The ratepayers are reminded that August 7th is the day they are asked to turn out and cast their vote in respect to the building of a Municipal Hospital.

A meeting to discuss the building of a Municipal Hospital will be held in the West Liberty school house, the date to be announced later.

Monday next is election day. Be sure and mark your ballot with an X.

HILLSIDE U.F.W.A.

The July meeting was held at the home of Mrs. Howard Marr, nine members and two visitors being present. The roll call was "A leader in women's work." Owing to the absence of Mrs. Martin, her paper on current events was read by Mrs. Dowdell. Mrs. Runtz gave a brief report of the U.F.A. convention held in Wetaskiwin on June 26th. Mrs. H. G. Young spoke on the work of the young people and what the Juniors had accomplished in the past year.

Miss Barbara Marr was present and gave an interesting talk on the "Farm Young People's Week" held at the University of Alberta during June.

The Battle River W.M.S. gave the annual picnic for the Bible Vacation School on Friday, July 18th, which was a very enjoyable event. Thirty-four children were present to take part in the closing exercises of the school and the games and competitions of the picnic, which was witnessed by many adult friends of the school. The competitions were all by groups rather than by individuals, to whom prizes were given to be enjoyed by all. Very dainty and bountiful refreshments were served, with lemonade, chocolate bars and peanuts. It was a picnic of the old-fashioned type, with everything free, and shared in common by all.

Advertisements in the paper that circulates all over the district thoroughly.

FRIGIDAIRE has Surplus Power

FRIGIDAIRE has surplus power to maintain intense cold on hottest days—to freeze ice and deserts quickly. This is just one reason why 3 times as many Frigidaires are now in use as any other make of electric refrigerator. Let us give you a demonstration.

ALBERTANS EAT 49 CARS INDIES BANANAS ALONE

Few people in Canada realize the rapid increase which has taken place in the importation of bananas from the British West Indies.

From a statement supplied by the minister of agriculture, at Ottawa, by the

Canadian National Steamship service it appears that 398 carloads came into western Canada during the fiscal year just completed. Of these, 130 carloads were landed at Montreal and 78 at Halifax.

Manitoba received 63 carloads of these bananas, Saskatchewan 53, Alberta 49, and British Columbia 43.

The importance of this trade to the Canadian consumer is reflected in the attractive prices at which bananas are now being offered throughout Canada compared with the prices which prevailed two or three seasons ago.

It is particularly interesting to note also from the statement supplied by the minister that banana shipments from the British West Indies to Vancouver have been made by way of Canadian National steamers to the eastern terminals and from there by rail as far west as Vancouver. So far no shipments have been made by way of the Panama canal.

Acidity

The common cause of digestive difficulties is excess acid. Stomach cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly, relief is quick, and very apparent. All gas is expelled; all sourness is soon gone; the whole system is renewed. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drugstore has the genuine, professional product.

KNOW YOUR TEACHER

"I'm not going back to school this afternoon."

"Why, Mary Ann. I'm astonished to hear you. Absent yourself from school? What in the world for?"

"Miss Mary is just too mean. I just hate her."

"Come, come, Mary Ann. Hate is too big a word for a little girl. A very dangerous word. You don't hate anybody, less Miss Mary. What happened?"

"It's everything. First she scolds all morning at the top of her voice for nothing. Somebody makes a mistake and she's off. She calls you stupid or she stands you in the corner. Just because she thought I was talking she made me stand in the corner all history lesson. 'N' 'twasn't me at all. 'N' if it had been she hasn't any business to stand me in the corner."

"Dear, dear. Have you washed your hands? No? Well, let's. I got some beautiful new soap. It smells like violets. I like violets. I was just wondering if there would be some in the orchard Saturday. You and I could take lunch and go out to find out and on the way back we could stop at grandma's and father could bring us home. Hurry, now, I'd hate his soup to get cold."

Long after Mary Ann had returned to school, mother sat thinking, a dark little crease between her eyes. Too many complaints had been coming in from school. It was plain Mary Ann and the teacher were not getting on well. Other children complained about being called names, being stood in the corner, scolded before class and made to feel cheap and ashamed. What was to be done about it?

Since the first day of school children have complained about the teacher. Sometimes they have reason for complaint, for teachers are not all born to the manner and the method, and some of the things complained because they had nothing else as dramatic to tell.

Keep an open mind about the matter. Wait until you have thought it all over. Let the froth blow off before you take the whole draught at a gulp. When the child's mood has passed, talk the whole thing over again, making certain that no hint of approval or rebellion of complaints, and the like, colors your questioning. Then if you think you are well under control and have your facts in order, ask the teacher to see you. Then quietly talk the matter over.

Few teachers are bent on making life miserable for their pupils, which is but the one certain way of making life miserable for themselves. Get to the bottom of the situation. Find what the teacher's difficulties are. Get the co-operation of the other parents of the school. Remember your child is but one of many and each child is a handful of trouble for a teacher if he wishes to be.

Know your school. Know your teacher. Don't stay at home while the trustees who may know very little about children select the teacher and formulate the course of study. Get out and do the work yourselves, and then you will be in a position to know and to judge the value of children's complaints. It would be a tragedy if a child were ill-treated in school. It would be just as deep a tragedy if he lost the values of his school life because school was neither set right nor interpreted correctly for him. Sending a child to school is the last thing you do. The first thing is building the right kind of school. Have you done that?

Never wait to see if a headache will "wear off." Why suffer when there's Bayer Aspirin? The many millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. And as surely as that of neuralgia, neuritis, even rheumatism. Doctors declare genuine Aspirin (with the Bayer Cross on every box and tablet) does not affect the heart. Any drugstore.

ASPIRIN
Aspirin is the trade name of Bayer Manufacture of Germany.
Get your commercial printing done at The Times Office.

MILLET LOCAL NEWS

Whyte & Orr are supplying the hardware for the new school.

Reg. Dixon is kept busy hauling material for the school these days.

Mr. and Mrs. W. Winters and son motored to Bashaw on Sunday last.

Mrs. P. Marechal shipped a young Tamworth boar to Prudhomme, Sask.

Mr. Geo. Wesmuth imported a purebred Holstein bull from Lacombe this week.

All you folks should visit Whyte & Orr's and see all the useful things they have on sale.

Mr. and Mrs. Kent and family returned on Saturday from their trip through the Rockies and the coast.

Ernest Blade and Ralph Van Vorrie left by car for Banff and several other points for vacation. Now Ralph, mind the eyes.

Millet Oddfellows are putting on a whist drive to be followed by a dance, on August 6th, in Pliny's hall, and expect it to be a huge success.

Mr. Rainier of the Calgary Power Co., is busy in town making repairs after the electrical storm. The transformers were damaged, so you understand.

Mr. F. Facey has sold his garage stock and equipment to Messrs. Matson and Atkins of Camrose, and has leased his business for five years. Mr. Facey intends remaining in the lively business.

Mr. Lockwood, of Waterman & Waterbury, arrived in Millet on Friday last to commence the new school. Since arriving, Mr. Lockwood has the excavation for the basement finished, and is pouring concrete. Some movement, what?

Mr. and Mrs. E. J. Olsen and family motored to Dayland on Sunday on the occasion of a family reunion. Some of the folks who came from the States, not having been together for some sixteen years. Mr. Olsen himself hadn't visited Dayland for seven years, and remarks on the great change that has taken place since he was last there. He also states that the crops in that district are very fine considering the shortness of moisture this year.

TENNIS CLUB FORMED

On Thursday, July 3rd, a meeting was held at the Arlington hotel by the tennis enthusiasts in order to form a club. To the great satisfaction of the parties who started the good movement the meeting was well attended.

Mr. J. A. English was elected President, but found it necessary to withdraw; Mr. C. S. Bear was nominated instead. Miss M. McHugh and Mr. J. Smith were respectively elected as Vice-President and Secretary-Treasurer. Three officers were elected for the grounds committee, namely, Miss J. Inglis, Mr. L. Roques and Mr. M. J. Smith. The following officers were elected on the rules committee: Misses J. Inglis, A. McManus, Messrs. H. Olsen, T. McHugh and A. Duggan.

Following the election of officers it was decided to have the court on the school ground. Much credit is given to the Bank boys who undertook the arduous task of having the court ready within a week, and everybody knows how they kept their promise, as on the 12th the first game was played. Special mention goes to Mr. Smith who approached everyone with a smile and was rewarded by the good support of all, 23 members having joined at a membership fee of \$2.00, from which, plus \$30 on hand from previous years, all expenses were paid. The only worries of members now are about their accuracy and skill to send the ball bullet-like over the net.

Members are not only limiting their pleasure in the play of a good clean sport, but have already arranged for a social evening, consisting of a whist drive and dance to be held on Friday, July 25th.

The other day two members rose early in the dawn to have a set of tennis, but on reaching the court, to their great surprise, they found it already occupied by Mary and Leo; after investigating they were informed that they were only on their way back home. This is only one of the many instances which goes to prove what great interest has been taken in tennis by the younger set of Millet.

Last, but not least, the members wish to express their sincere thanks to Mrs. M. Inglis for her kindness in letting the club have the use of the sitting room at the Hotel for their meetings.

If even a few friends of The Times will only remember us from week to week in a little way, it will help amazingly to make this paper much newer and therefore that much better from the real test of a paper, the subscriber's standpoint.

WHY BOTHER?

During the ages, the superstitions that were associated with the healing art have gradually disappeared. In the earliest countries, treatment was carried out with ceremonial, incantations, mysterious potions and dances, and offerings were made to the spirits. Today, medicine is a science based upon investigation, experiment and analysis.

In the course of this development, great progress has been made, not only in the treatment of disease but also in its prevention. In one sense, progress has been rapid, but in another, it appears to be slow because there is still much to be learned about the mechanism of the human body, and there are still diseased conditions which baffle us and which seem to be beyond our control.

One thing that has been clearly shown is that many serious and chronic diseases have their beginnings in what are apparently trivial conditions. Every advanced cancer was at one time a local disease which could have been cured. Chronic heart and kidney diseases do not begin as serious conditions; they pass through an early stage. Tuberculosis usually first shows itself as a mild localized disease.

It is for these reasons that we should bother about what we might consider to be trivial diseases or even what seems to be merely a lack of physical fitness. Proper treatment during the early stages is necessary to arrest the progress of many diseases.

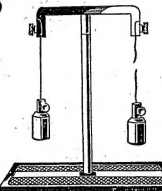

The chief objection to self-medication is that it delays proper treatment, which, when it is secured in time, offers the only possible chance of nipping in the bud a condition which may lead to serious or chronic disease.

The practitioner of medicine is not a magician. The good he can do is limited by the knowledge he possesses. He does not promise cures, but he does offer the benefits of medical science, and if we are unfortunate enough to suffer, it may be because we have not availed ourselves of his skill. We still delay in securing his services, and it is such delay which leads to serious trouble.

Why bother about minor conditions of ill-health? The answer is that the best time to consider disease is when the most can be done with it, and that is before it becomes firmly rooted in the body. Proper early treatment has

The Weight Test

Shows
Gum-Dipped
Cords
are Stronger-Tougher

HERE is a test which easily proves the value of Gum-Dipping--the extra patented Firestone process of saturating and insulating every fibre of every cord in a Firestone tire with rubber to eliminate internal heat and friction--the greatest enemy to tire life.

A two-ounce weight is suspended on the end of one strand of a cord (a) taken from an ordinary tire. The strand breaks in 15 seconds. A similar weight is suspended on a Gum-Dipped strand (b) taken from a Firestone tire--it remains unbroken for 45 seconds--three times as long!

Let your nearest Firestone dealer equip your car with a set of these stronger, tougher, more dependable tires that hold the world's records for mileage and endurance. See him to-day.

AUDIEN THEATRE

Thursday (Tonight) 8:30 p.m. July 24
POLITICAL RALLY
 In the interests of C. H. Russell, Conservative Candidate. Senator Griesbach, the Candidate, and others will deliver addresses. Every-body welcome.

Friday, 8 p.m.—Saturday, 2:30, 7:30 and 9:30 p.m. July 25-26
WILL ROGERS in
"THEY HAD TO SEE PARIS"
 A hilarious story of a small town man who had been made wealthy by oil. His ambitious wife insists on tripping to Paris where she hobnobs with the elite in an endeavor to secure a title for her daughter. See and hear what makes them realize that "there's no place like home."

TWO LIVELY ALL TALKING COMEDIES
 Monday, Tuesday, Wednesday, 8 p.m. July 28-29-30
WINNIE LIGHTNER in
"SHE COULDN'T SAY NO"
 Winnie Lightner, foremost comedienne of the screen, scores a big hit in her first dramatic role. A colorful musical drama of a gifted songstress who paid a fearful price for a love she couldn't hold. The distinguished cast includes Chester Morris (the crook of "Alibi"), Sally Eilers, Tully Marshall and Johnny Arthur. This is an exceptionally good picture, do not miss it.

TWO ALL TALKING AND MUSICAL COMEDIES
 Thursday, Friday, Saturday July 31, August 1-2
"THE GOLDEN DAWN"

HAIL CAUSES MORE DAMAGE IN ALBERTA

Saskatoon, July 18.—Hail storms again flattened crops in a dozen districts of Alberta and Saskatchewan on Thursday, although damage will not run as heavy as in the previous storms a short time ago.

The main storm swept over a sixty-mile stretch between Sibley, Alta., and Brock, Sask. Districts between these points hardest hit were Kenderley and Netherhill, and east of these places, Macrorie and Juniper. One hundred per cent. losses were reported on many farms.

TRY THIS—ON A FRIEND
 Mrs. Herman H. Williams, an apothecary of Mt. Victory, Ohio, stood like a statue with three swarms of bees weighing about 50 pounds bearing down on her recently, then carried them to a hive without being stung.

Mrs. Williams was summoned to settle a swarm of bees that had gathered on the branch of a briar bush. When they had swarmed she cut off the briar and started toward a hive. Another swarm settled down on her left arm. Fearing to move lest the bees sting her to death, she remained motionless while the insects settled. She started for the hive a second time and a third swarm settled on her neck and shoulders. Again she remained motionless for a quarter of an hour until the bees became quiet. Then she took them to the hive and added by a "smoker," put the bees safely away.

"DON'T HAVE TO" MERCHANT DOESN'T GET VERY FAR

The bird who says "I don't have to" to advertise for everyone knows who I am, where I am, and what I sell; I will never make any more than a living. The average shop does not care who a merchant is, where he is, or what he sells. But, he does care about information as to cost of what he wants without wasting steps. So, advertise.—The Life of the Town, Bellevue Falls, Vt.

LET PEOPLE KNOW

Reader—If you find The Times bright and interesting, remember that you can make it even more attractive if you mail or telephone the editor all the personal items you can think of. Have you visitors at your home? Are your neighbors entertaining guests? Have any members of your family gone away on a trip? Are your friends out of town? Do you know of new residents coming here to settle? Have you hidden good-bye to Wetaskiwinites who are to make their homes elsewhere? Let The Times know.

***A dance will be held in the hall, Mac-Mo-O Beach, every Saturday night. Snappy music. Stop on the way and let's go. 12-14th

Insect pests cost Canada over \$100,000,000 annually in field crops alone, with a further loss of \$50,000,000 to trees, stored products, etc.

 Thursday—Public meeting, 8 p.m.

AN ALL-POWER FARMER SPEAKS
 (By E. A. Switzer)

The idea of raising fifty cent wheat is surely causing a lot of talk among farmers in general. The majority laugh at it, and say it is impossible, while a few think the time is coming when wheat will be raised for fifty cents a bushel.

I agree with A. E. Ottewill in his address at Winnipeg as reported in the Edmonton Journal of April 8. In the issue of April 23 was an article by F. T. Fisher, in which he doubts the possibility of raising wheat at 50 cents a bushel. I am a power machine man, having power-farmed in Alberta without an animal of any kind on the farm, as far back as 1922, when everyone else around laughed at me. First I proved to myself and others that machine power excelled horse power. Also I have operated all kinds of power machinery since and am operating power machinery at present. I have figured on power farming for years on a large scale.

Months before Mr. Ottewill's address appeared in the Journal, I had figured out what wheat can be grown for. With the machinery we have today wheat can be grown for 50 cents a bushel. The small farmer cannot do it under present conditions, but it will be grown by the large farmer for fifty cents at a profit. I am not quite in favor of Mr. Ottewill on one thing. I don't think at the present price of everything that such a small farm as 640 acres can make a profit at 50-cent wheat.

Take for instance a 100 h.p. tractor which we have today can farm and work properly, in the right season, a 9,000-acre farm, that is, 6,000 acres in crop each year. These figures are based on a section of the country where the combines prove satisfactory. The figures may look astonishing to the majority of people, but it can be done and not work over 90 to 100 days in a year. Multi-machines would have to be employed, and not unit machines. I will just give a few figures on the cost of operating a one engine farm, on a large farm employing three or four engines, the cost would be cut some on account of not needing a full line of machinery for each engine as one engine does one thing while the other does something else. The operating

costs of a 100 h.p. tractor, gas, oil, grease, wages, repairs, depreciation, interest and unforeseen, working 12 hours a day and allowing 8 per cent interest on a basis of a six-year life is approximately \$30 a day or \$3,000 a year. The total cost of a complete line of implements for a 100 h.p. tractor, including a twelve-ton truck, estimating everything high, would be \$34,000—interest at 8 per cent and depreciation on a six-year basis, operation and repairs. The total cost of operation of engine and machines would be between \$20,000 and \$21,000 per season on a 6,000-acre crop farm, which is \$3.50 or \$3.50 per acre.

These figures are based on a system of two crops and a summer-fallow. Mr. Fisher mentions half in crop each year. There is no need to crop only once in two years in most of the west if the proper method of farming is applied, but there are sections of western Canada which need Mr. Fisher's method.

Now let us get to the investment of land. Mr. Fisher states that a moderate price of land at \$50 an acre. That is a very high price. There are many times more \$30 an acre land than \$50 in the west, but say \$40 an acre at 8 per cent on investment would be \$50 an acre per crop acre, under the two and one crop system, which is \$4.50 an acre. Insurance and seed would not bring the total to over \$8 per acre. There would have to be an average of 18 bushels an acre per year and that is not too high for 40-acre-land. The cost per acre can be cut down at that as I have estimated everything high.

The average farmer cannot turn to mechanized farming all at once. It will take him some time to educate himself to machine power. All power on a large scale is not the same as the small tractor, as it is used today on the average farm. It is only very few who can start farming on a large scale as it takes mechanical experts to be able to operate and manage

expenses of a 100 h.p. tractor, gas, oil, grease, wages, repairs, depreciation, interest and unforeseen, working 12 hours a day and allowing 8 per cent interest on a basis of a six-year life is approximately \$30 a day or \$3,000 a year. The total cost of a complete line of implements for a 100 h.p. tractor, including a twelve-ton truck, estimating everything high, would be \$34,000—interest at 8 per cent and depreciation on a six-year basis, operation and repairs. The total cost of operation of engine and machines would be between \$20,000 and \$21,000 per season on a 6,000-acre crop farm, which is \$3.50 or \$3.50 per acre.

Liberal Rally

In the interests of WM. HAYHURST, will be held in the

ELKS' HALL, WETASKIWIN

Friday Evening, July 25

at 8:30

THE SPEAKERS will be—
 CAPT. J. C. BOWEN, of Edmonton
 S. G. TOBIN, ex-M.P., and
 WM. HAYHURST, the Candidate.

EVERYBODY CORDIALLY INVITED

large multi-machines under a business system. The machine age is coming fast and it will only be a short time until we use it around us. They have started it in Texas now. Russia is starting it and no reason why it cannot be carried out. Being not familiar with Russia or European conditions I cannot say whether they can or not, but the principle seems sound enough.

As I have said before, wheat raising is only one part of farming and we have to raise a cheaper wheat, as it is coming to it. The sooner we get to thinking so and adjust ourselves accordingly, the better. The farmer that can figure on raising wheat for 50 cents a bushel at a profit is better off if he gets 70 cents for it than the farmer who counts on a \$1 and gets 70 cents.

Mr. Ottewill's ideas on mechanized farming conditions are fine and it is a good thing to give the people an idea of what is coming so they can adjust their principles of farming accordingly. I, for one, am planning to start wheat producing on a large scale and it will be fully mechanized. I have power farmed before and it proved satisfactory, and the machines of today are bigger and better than ever. The machine companies have just nicely started to build power machinery. In a few years, today's ma-

chinery will be out of date as machinery will be built to order.—Edmonton Journal.

A meeting in support of the U.F.A. candidate, Wm. Irvine, will be held in the Bittern Lake hall on Friday, July 25th, at 8:30. Everybody welcome.

A meeting in support of the U.F.A. candidate, Wm. Irvine, will be held in Crooked Lake school on Friday, July 25th, at 8:30. Everybody welcome.
